Running Cultures John Bale, 2004 Running is one of the world's most widely practiced sports and recreations but until now it has intended to elude serious study outside of the natural sciences John Bale brings the sport into the realm of the humanities by drawing on sources including literature poetry film art and sculpture as well as statistics and training manuals to highlight the tensions ambiguities and complexities that lie hidden beneath the commonplace notion of running The text explores both local and personal as well as communal and global aspects of running and its practitioners It examines the streets tracks and stadiums where athletes run the races in which they compete and the running relationships such as exist between the athlete and the coach between runners and between the athlete and spectator It discusses the importance of speed and records how running has been used to symbolise resistance and transgression and the extent to which it can be associated with a healthy lifestyle *Running Cultures* provides new ways of seeing a familiar sporting phenomenon it will appeal to both students and researchers with an interest in running in particular and sport and leisure cultures more generally

The Problem of Jesus Mark Clark,2021-02-23 The modern world portrays Jesus in many ways for many reasons Some are well intentioned but misguided others are aberrations still others have some but not all the essential keys In order to see and understand the real Jesus and what the Gospels say about him we have to see him in his first century context and work out from there Here is a portrait of Jesus that in some ways will affirm what traditional Christianity has always understood about him and in other ways upend it altogether Award winning author Mark Clark delves into the person and work of Jesus of Nazareth his parables and miracles his controversial challenge of discipleship and obedience his seemingly insane claim to be God and what his death and resurrection if they did happen actually mean Mark is unafraid to tackle questions such as What would first century Jews have immediately recognized about Jesus that modern Christians often miss What do the Gospels accomplish and can we trust them Is there a problem with science and Jesus miracles What are the barriers stopping people from following him And what is Christianity in light of an accurate portrayal of the object of its faith The Problem of Jesus engages with ideas from all realms of study from Malcolm Gladwell and Jordan Peterson to historians scientists and philosophers from N T Wright to C S Lewis from Star Wars to Pretty Woman all unite to form a breathtaking and accurate portrait of Jesus the man the message and the mission who forever altered the course of human history As a former atheist I would call this book philosophical dynamite The Problem of Jesus will take your thinking about Jesus and your relationship with him to whole new levels Pastor and author Ray Johnston
