

# DBQ DISCUSSION: RUSSIAN REVOLUTION

**Step 1:** As you read each document, use the associated reading strategy. Then analyze the document according to HIPP... choose at least two for each document and circle the choices you are making with EACH document.

**HISTORICAL CONTEXT:** How is this document connected to other events in history? What does the time and date tell you?

**INTENDED AUDIENCE:** Who was the intended audience for this document?

**PURPOSE:** What was the purpose behind this document? Why did the speaker say or write this? What was the speaker's goal?

**POINT OF VIEW or PERSPECTIVE:** Who is the author and what does the author's economic status/mood/gender impact their perspective? In other words, what bias might the author have? When a point of view is harmful, it is called a prejudice.

**Step 2:** After you are finished reading each of the documents, use the graphic organizer on the last page to prepare for a discussion on the following focus questions:

**Where did Russian people turn to after the Russian Revolution? Was Communism the problem or was it the ally?**

**Step 3:** Discussion! We will have a collaboratively assessed discussion on this topic. The goal here is you get to use your notes from the discussions, the reading part of work!! This was designed to speak at least three times but you will also be assessed on the quality of what you discuss. Expect to get a coding grade for how you'll be assessed.

**COLLABORATIVE DISCUSSION:** Working and participating effectively in a range of collaborative discussions with diverse partners on grade-level topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

**Lessons for the Social Studies Classroom** M. Lazarus, S. Cohen, K. Lambert, R. E, 2013-03-12 The idea for this book came while I was observing a student teacher and a master teacher I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons I also noticed that teachers new to the field of teaching suffer the same fate they are too busy trying to survive the day and are not sure how to plan and organize their teaching Lesson plans are one of the most important tools for a teacher and more important for the novice teacher I believe that during student teaching or during their undergraduate years if students were equipped with this book their first year teaching will not look so first year Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans improving upon them and making them their own Most first year teachers over teach or under teach and both types still miss the marks on the standardized test These lesson plans will give the new teacher a place to begin

*The Red Atlas* John Davies,Alexander J. Kent,2017-10-17 From 1950 to 1990 the Soviet Army conducted a global topographic mapping program creating large scale maps for much of the world that included a diversity of detail that would have supported a full range of military planning For big cities like New York DC and London to towns like Pontiac MI and Galveston TX the Soviets gathered enough information to create street level maps What they chose to include on these maps can seem obvious like locations of factories and ports or more surprising such as building heights road widths and bridge capacities Some of the detail suggests early satellite technology while other specifics like detailed depictions of depths and channels around rivers and harbors could only have been gained by actual Soviet feet on the ground The Red Atlas includes over 350 extracts from these Cold War maps exploring their provenance and cartographic techniques as well as what they can tell us about their makers and the Soviet initiatives that were going on all around us Memories and Impressions of War and Revolution in Russia Basil Gourko,1918 Mapping Russia and Its Neighbors, the New Atlas of the Changed Geographical Face of the Former Soviet Union Godfrey Harris,Sergei A.
