Africa in the Age of Globalisation Assoc Prof Edward Shizha,Assoc Prof Lamine Diallo,2015-04-28 This is a collection of bold and visionary scholarship that reveals an insightful exposition of re visioning African development from African perspectives It provides educators policy makers social workers non governmental agencies and development agencies with an interdisciplinary conceptual base that can effectively guide them in planning and implementing programs for socio economic development in Africa The book provides up to date scholarly research on continental trends on various subjects and concerns of paramount importance to globalisation and development in Africa politics democracy education gender technology global relationships and the role of non governmental organisations The authors challenge the familiar paradigms in order to show how imperfectly if at all assumptions about globalisation and development theories have failed in their depictions and applications to Africa The scholars in this volume both inform and advocate for a re visioning of perceptions on Africa and how it navigates global processes *Science Education: A Global Perspective* Ben Akpan,2016-08-03 Science Education A Global Perspective is global both in content and authorship Its 17 chapters by an assemblage of seasoned and knowledgeable science educators from many parts of the world seek to bring to the fore current developments in science education and their implications The book thus covers a wide range of topics in science education from various national and international perspectives These include the nature of science science and religion evolution curriculum and pedagogy context based teaching and learning science and national development socially responsible science education equitable access for women and girls in science and technology education and the benefits of science education research It ends on an optimistic note by looking at science education in 50 years time with a recommendation among others for stakeholders to

take the responsibility of preparing children towards a blossoming science education sector in an anticipated future world This book is suitable for use by discerning researchers teachers undergraduate and postgraduate students in science education and policy makers at all levels of education Other educationalists and personnel in science and technology vocations will also find it interesting and useful as the reader motivated approach has guided the presentation of ideas Science Education A Global Perspective is a rich compendium of the components of science education in context practice and delivery Dr Bulent Cavas Professor of Science Education Dokuz Eylul University Buca Izmir Turkey President Elect International Council of Associations for Science Education ICASE This book will be of immense relevance for current and future global strides in training and research in science education Surinder K Ghai Chairman Sterling Publishers Pvt Ltd New Delhi India This book provides a refreshing insight into the current status and future direction of science education It will be very useful to researchers those pursuing undergraduate and post graduate courses in science education and all other personnel involved in the policy and practice of science education Dr Bennoit Sossou Director Country Representative UNESCO Regional Office in Abuja Nigeria *Acta Theriologica* ,2014 Towards Democratic Development States in Southern Africa Kanyenze, Godfrey, Jauch, Herbert, 2016-12-14 The dawn of the twenty first century heralded an apparent change of fortunes for most sub Saharan African economies with annual growth averaging over 5% for fifteen years However this was not accompanied by structural transformation poverty food insecurity unemployment and inequality persist Structural transformation has not been and indeed cannot be delivered by market forces and neoliberal economic policies it requires a state committed to development and to achieving it in a democratic way To what extent do the countries of Southern Africa exhibit the characteristics of such a developmental state What steps if any do they need to take in order to become one The book answers the questions with respect to South Africa Botswana Namibia Zimbabwe Angola and Malawi Godfrey Kanyenze and his colleagues have assembled a distinguished team of writers to take the temperature of the regional political economy and chart a path for its future development San Representation Keyan Tomaselli, Michael Wessels, 2017-12-22 The San or Bushmen of southern Africa have exerted a fascination over generations of writers and scholars from novelists and anarchists to ethnologists and geneticists and also occupy a special place in the popular imagination as the First People and the contemporary remnant of spiritual and natural man The ways in which particular groups of people from southern Africa have been traditionally categorised and positioned as objects of scrutiny by a range of academic disciplines is increasingly being contested and questioned There is a growing awareness of the cultural economic and genetic entanglement of the peoples of the region This book examines how San and Khoe people are represented by others as well as by those who identify as San or Khoe The book interrogates the ways in which disciplines through their methodologies and ways of authorising knowledge not only discover or reveal knowledge but produce it in ways that involve complex and often ambiguous relationships with power structures and forms of intellectual symbolic and cultural capital One

major trend that emerges is that the San and Khoe can no longer be seen as people of the past but have to be acknowledged as contemporary and socially situated individuals and communities who are increasingly contesting the representations which others have imposed on them This book was originally published as a special issue of Critical Arts A Journal of South North Cultural and Media Studies **Africa's Urban Revolution** Doctor Edgar Pieterse, Susan Parnell, 2014-01-09 The facts of Africa's rapid urbanisation are startling By 2030 African cities will have grown by more than 350 million people and over half the continent's population will be urban Yet in the minds of policy makers scholars and much of the general public Africa remains a quintessentially rural place This lack of awareness and robust analysis means it is difficult to make a policy case for a more overtly urban agenda As a result there is across the continent insufficient urgency directed to responding to the challenges and opportunities associated with the world's last major wave of urbanisation Drawing on the expertise of scholars and practitioners associated with the African Centre for Cities and utilising a diverse array of case studies Africa's Urban Revolution provides a comprehensive insight into the key issues demographic cultural political technical environmental and economic surrounding African urbanisation *The Right to Food Guidelines, Democracy and Citizen Participation* Katharine S. E. Cresswell Riol, 2016-11-10 It is now more than a decade since the Right to Food Guidelines were negotiated agreed and adopted internationally by states This book provides a review of its objectives and the extent of success of its implementation The focus is on the first key guideline Democracy good governance human rights and the rule of law with an emphasis on civil society participation in global food governance The five BRICS countries Brazil Russia India China and South Africa are presented as case studies representing major emerging economies they blur the line between the Global North and South and exhibit different levels of human rights realisation The book first provides an overview of the right to adequate food accountability and democracy and an introduction to the history of the development of the right to adequate food and the Right to Food Guidelines It presents a historical synopsis of each of the BRICS states experiences with the right to adequate food and an analysis of their related periodic reporting to the Committee on Economic Social and Cultural Rights as well as a specific assessment of their progress in regard to the first guideline The discussion then focuses on the effectiveness of the Right to Food Guidelines as both a policy making and monitoring tool based on the analysis of the guidelines and the BRICS states *Politics and the Urban Frontier* Tom Goodfellow, 2022-09-26 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Despite the rise of global technocratic ideals of city making cities around the world are not merging into indistinguishable duplicates of one another In fact as the world urbanizes urban formations remain diverse in their socioeconomic and spatial characteristics with varying potential to foster economic development and social justice In this book Tom Goodfellow argues that these differences are primarily rooted in politics and if we continue to view cities as economic and technological projects to be managed rather than terrains of

political bargaining and contestation the quest for better urban futures is doomed to fail Dominant critical approaches to urban development tend to explain difference with reference to the variegated impacts of neoliberal regulatory institutions This however neglects the multiple ways in which the wider politics of capital accumulation and distribution drive divergent forms of transformation in different urban places In order to unpack the politics that shapes differential urban development this book focuses on East Africa as the global urban frontier the least urbanized but fastest urbanizing region in the world Drawing on a decade of research spanning three case study countries Ethiopia Rwanda and Uganda *Politics and the Urban Frontier* provides the first sustained book length comparative analysis of urban development trajectories in Eastern Africa and the political dynamics that underpin them Through a focus on infrastructure investment urban propertyscapes street level trading economies and urban political protest it offers a multi scalar historically grounded and interdisciplinary analysis of the urban transformations unfolding in the world s most dynamic crucible of urban change

Social and Economic Rights in Theory and Practice Helena Alviar García, Karl Klare, Lucy A. Williams, 2014-09-19 Since World War II a growing number of jurisdictions in both the developing and industrialized worlds have adopted progressive constitutions that guarantee social and economic rights SER in addition to political and civil rights Parallel developments have occurred at transnational level with the adoption of treaties that commit signatory states to respect and fulfil SER for their peoples This book is a product of the International Social and Economic Rights Project iSERP a global consortium of judges lawyers human rights advocates and legal academics who critically examine the effectiveness of SER law in promoting real change in people s lives The book addresses a range of practical political and legal questions under these headings with acute sensitivity to the racial cultural and gender implications of SER and the path breaking SER jurisprudence now emerging in the Global South The book brings together internationally renowned experts in the field of social and economic rights to discuss a range of rights controversies from both theoretical and practical perspectives Contributors of the book consider specific issues in the litigation and adjudication of SER cases from the differing standpoints of activists lawyers and adjudicators in order to identify and address the specific challenges facing the SER community This book will be of great use and interest to students and scholars of comparative constitutional law human rights public international law development studies and democratic political theory

The Institutionalisation of Disaster Risk Reduction Gideon van Riet, 2016-12-01 The past three decades have seen a global shift in disaster management from an event driven response to a could be risk management approach Disaster risk reduction DRR has become entrenched as a dominant paradigm within the field of disaster management More than a decade after adopting DRR legislation in South Africa there remains a dearth of evidence that this has translated into substantive action This book examines the institutionalisation of DRR in South Africa conceived of as a political economy of knowledge production Using a critical theory approach the book does not consider why DRR is failing but instead asks why DRR As such it explores possibilities beyond DRR s narrow optic and offers new insights

into disaster management through the lens of South Africa This is valuable reading for graduate students and academics working in disaster studies geography public policy and development post development studies as well as policy makers

Public Health, Disease and Development in Africa Ezekiel Kalipeni,Juliet Iwelunmor,Diana S.

Grigsby-Toussaint,Imelda K. Moise,2018-06-14 The closure of the Millennium Development Goals MDGs in 2015 prompted the need for a book of this kind An interdisciplinary group of global health scholars contribute to the understanding of the emerging and fast growing problem of the dual burden of communicable and non communicable diseases NCDs in Africa This book is timely as the international community has moved from the MDGs to adopt the Sustainable Development Goals SDGs as the blueprint for a new human development agenda Contributions and case studies are situated in the revised Epidemiologic and Nutrition Transition Model to capture the current situation referencing communicable and NCDs on the African continent The case studies encapsulated aim to help minimize negative health outcomes and improve population health well being and equity in the future This book will be significant in policy circles to assist international organizations governments and United Nations agencies It aims to chart the future for health in Africa in light of recently adopted SDGs This book is also a useful complementary reader for global public health related courses *State of the World's Cities 2012/2013* Un Habitat,2013-10-23 The city is the home of prosperity It is the place where human beings find satisfaction of basic needs and access to essential public goods The city is also where ambitions aspirations and other material and immaterial aspects of life are realized providing contentment and happiness It is a locus at which the prospects of prosperity and individual and collective well being can be increased However when prosperity is restricted to some groups when it is used to pursue specific interests or when it is a justification for financial gains for the few to the detriment of the majority the city becomes the arena where the right to shared prosperity is claimed and fought for As people in the latter part of 2011 gathered in Cairo s Tahrir Square in Madrid s Puerta del Sol in front of London s St Paul s cathedral or in New York s Zuccotti Park they were not only demanding more equality and inclusion they were also expressing the need for prosperity to be shared across all segments of society What this new edition of State of the World s Cities shows is that prosperity for all has been compromised by a narrow focus on economic growth UN Habitat suggests a fresh approach to prosperity beyond the solely economic emphasis including other vital dimensions such as quality of life adequate infrastructures equity and environmental sustainability The Report proposes a new tool the City Prosperity Index together with a conceptual matrix the Wheel of Prosperity both of which are meant to assist decision makers to design clear policy interventions The Report advocates for the need of cities to enhance the public realm expand public goods and consolidate rights to the commons for all as a way to expand prosperity This comes in response to the observed trend of enclosing or restricting these goods and commons in enclaves of prosperity or depleting them through unsustainable use The Report maps out major policy steps to promote a new type of city the city of the twenty first century that is a good people centred city One that is capable of

integrating the tangible and more intangible aspects of prosperity and in the process shedding off the inefficient unsustainable forms and functionalities of the city of the previous century By doing this UN Habitat plays a pivotal role in ensuring that urban planning legal regulatory and institutional frameworks become instruments of prosperity and well being

Agricultural Land Use and Natural Gas Extraction Conflicts Madeline Taylor,Tina Hunter,2018-11-02 Onshore unconventional gas operations in most jurisdictions operate on the legal principle that all activities during exploration and extraction are temporary in nature The concept that the onshore unconventional gas industry has a temporary effect on the land on which it operates creates a regulatory paradox On one hand unconventional gas activities create energy security national wealth and a burgeoning export industry On the other agricultural land and agriculturalists may be significantly disadvantaged by unconventional gas activities potentially producing permanent damage to non renewable fertile soils and spoiling the underground water tables Thus threatening future food security and food sovereignty This book explores the socio regulatory dimensions of coexistence between agricultural and onshore unconventional gas land uses in the jurisdictions with the highest concentration of proven unconventional gas reserves Australia Canada the USA the UK France Poland and China In exploring the differing regulatory standpoints of unconventional gas land uses on productive farming land in the chosen jurisdictions this book provides an original three part categorisation of regulatory approaches addressing the coexistence of agricultural land and unconventional gas namely adaptive management precautionary and finally statism

It offers a timely and topical approach to socio legal natural resource governance theory based on the participation transparency and empowerment for agricultural landholders examining how differing frameworks such as the collective bargaining framework can create equitable and sustainable contractual arrangements with unconventional gas companies

The Thika Highway Improvement Project Renard Teipelke, 2013-12-04 Theory and practice of high capacity infrastructure projects are the major focus in the development of countries in the Global South Aiming at a more fine grained understanding of such projects Renard Teipelke studies the Thika Highway Improvement Project THIP and its outcomes in the peri urban Northern Nairobi Metropolitan Region The THIP is a large transportation infrastructure project that expanded the dual carriageway Thika Road into an eight lane highway from 2008 until 2012 Based on a strategic mix of methodological approaches such as interviews with experts in Kenya literature research and field visits the black box THIP is opened up In the empirical analysis the project s idea its design and its implementation are studied It is concluded that the project s outcomes are ambivalent partly living up to the expectations of THIP proponents but not resulting in shared benefits for all concerned stakeholders due to flaws in managing the development in this peri urban transport corridor area thereby fitting into the Kenyan context of politics and planning **Comprehensive Geographic Information Systems**, 2017-07-21
