brilliant minds of all nationalities mingle freely with few questions asked Intelligence agencies have always recruited bright undergraduates but now in an era when espionage increasingly requires specialized scientific or technological expertise they are wooing higher level academics not just as analysts but also for clandestine operations Golden uncovers unbelievable campus activity from the CIA placing agents undercover in Harvard Kennedy School classes and staging academic conferences to persuade Iranian nuclear scientists to defect to a Chinese graduate student at Duke University stealing research for an invisibility cloak and a tiny liberal arts college in Marietta Ohio exchanging faculty with China's most notorious spy school He shows how relentlessly and ruthlessly this practice has permeated our culture not just inside the US but internationally as well Golden blows the lid off this secret culture of espionage and its consequences at home and abroad Whether you are a teacher student or parent Daniel Golden's closely researched account of the assault on our academic freedoms by home grown intelligence services is timely and shocking John le Carr It's real life Spy vs Spy a fascinating book Washington Post

People's Diplomacy Kazushi Minami, 2024-03-15 In People's Diplomacy Kazushi Minami shows how the American and Chinese people rebuilt US China relations in the 1970s a pivotal decade bookended by Richard Nixon's 1972 visit to China and 1979 normalization of diplomatic relations Top policymakers in Washington and Beijing drew the blueprint for the new bilateral relationship but the work of building it was left to a host of Americans and Chinese from all walks of life who engaged in people to people exchanges After two decades of estrangement and hostility caused by the Cold War these people dramatically changed the nature of US China relations Americans reimagined China as a country of opportunities irresistible because of its prodigious potential while Chinese reinterpreted the United States as an agent of modernization capable of enriching their country and rejuvenating their lives Drawing on extensive research at two dozen archives in the United States and China People's Diplomacy redefines contemporary US China relations as a creation of the American and Chinese people

of much nonpornographic content including material on sex education and LGBTQIA activism In this wide ranging enlightening account Monea examines the cultural technological and political conditions that put LGBTQIA content into the closet Monea looks at the anti porn activism of the alt right Christian conservatives and anti porn feminists who became strange bedfellows in the politics of pornography investigates the coders code and moderators whose work serves to reify heteronormativity and explores the collateral damage in the ongoing war on porn the censorship of LGBTQ community resources sex education materials art literature and other content that engages with sexuality but would rarely be categorized as pornography by today s community standards Finally he examines the internet architectures responsible for the heteronormalization of porn Google Safe Search and the data structures of tube sites and other porn platforms Monea reveals the porn industry s deepest darkest secret porn is boring Mainstream porn is stuck in a heteronormative filter bubble limited to the same heteronormative tropes tagged by the same heteronormative keywords This heteronormativity is mirrored by the algorithms meant to filter pornographic content increasingly filtering out all LGBTQIA content Everyone suffers from this forced heteronormativity of the internet suffering Monea suggests that could be alleviated by queering straightness and introducing feminism to dissipate the misogyny
