Practical Implementation Science Bryan J. Weiner, Cara C. Lewis, Kenneth Sherr, 2022-03-18. Prose Award Finalist for Nursing and Allied Health Services Category. Awarded First Place in the AJN 2022 Book of the Year Awards in the Community Public Health Category. *Practical Implementation Science: Moving Evidence Into Action* provides the ideal text for a master's level implementation science course. It fills an important gap by focusing on building skills among trainees whose careers will focus more on implementation practice than research and prepares them to partner with scientists to enhance effective implementation in public health and health systems. Most importantly, my students feel that the book is helping make a topic that can be experienced as complex, very accessible. Donna Shelley MD MPH, Professor, Dept. Public Health Policy and Management, Director, Global Center for Implementation Science, NYU School of Global Public Health. *Practical Implementation Science* is designed for graduate health professional and

advanced undergraduate students who want to master the steps of using implementation science to improve public health. Engaging and accessible, this textbook demonstrates how to implement evidence-based practices effectively through use of relevant theories, frameworks, models, tools, and research findings. Additional real-world case studies across public health, global health, and health policy provide essential context to the major issues facing implementation domestically and globally, with consideration of communities in low to middle income countries (LMIC). The textbook is organized around the steps involved in planning, executing, and evaluating implementation efforts to improve health outcomes in communities. Coverage spans assessing the knowledge-practice gap, selecting an evidence-based practice (EBP) to reduce the gap, assessing EBP fit, and adapting the EBP, assessing barriers and facilitators of implementation, engaging stakeholders, creating an implementation structure, implementing the EBP, and evaluating the EBP effort. Each chapter includes a how-to approach to conducting the task at hand. The text also addresses the practical importance of implementation science through disseminating EBPs, scaling up EBPs, sustaining EBPs, and deimplementing practices that are no longer effective. All chapters include learning objectives and summaries with emphasized Key Points for Practice, Common Pitfalls in Practice, and discussion questions to direct learning and classroom discussion. Fit for students of public health, health policy, nursing, medicine, mental health, behavioral health, allied health, and social work, Practical Implementation Science seeks to bridge the gap from scientific evidence to effective practice. Key Features: Soup to Nuts Approach: Distills the steps to selecting, adapting, implementing, evaluating, scaling up, and sustaining evidence-based practices. Expert Insight: Editors and chapter authors bring years of experience from leading implementation programs and interventions. Multidisciplinary Focus: Utilizes cases and research findings relevant to students of public health, medicine, nursing, mental health, behavioral health, and social work. Case Studies and Real World Examples: Blends frameworks, models, and tools with real-world examples for students interested in both domestic and global health. eBook Access: Included with print purchase for use on most mobile devices or computers. Instructor's Packet: Complete with an Instructor's Manual, PowerPoint slides, and a Sample Syllabus.

Transforming Higher Education Through Digitalization S. L. Gupta, Nawal Kishor, Niraj Mishra, Sonali Mathur, Utkarsh Gupta, 2021-11-10. Higher education is dynamic, constantly adapting to meet the requirements of students and industry. Transforming Higher Education Through Digitalization: Insights, Tools, and Techniques provides insights from experienced academicians on the digitalization of education and its appropriateness for enhancing the quality of teaching in institutions of higher education. The book also provides insights on technologies used in digital education, the competencies and skills required by teachers and students, managing quality of education through online modes (MOOCs: Massive Open Online Courses) and methods to support teachers and instructors in online education. The book also enables teachers and instructors to help students develop the knowledge and skills they need in a digital age and enable them to build collaborative learning that will bring them success. Written for educators, students, and policy makers of higher education, this book demonstrates how to transform traditional education to

digital education and to continue their activities without the requirement of students and teachers meeting each other on campus

This Is Not a Hoax Heather Jessup, 2019-11-06 This Is Not a Hoax shows how the work of some contemporary artists and writers intentionally disrupts the curatorial and authorial practices of the country's most respected cultural institutions art galleries museums and book publishers This first ever study of contemporary Canadian hoaxes in visual art and literature asks why we trust authority in artistic works and how that trust is manifest This book claims that hoaxes far from being merely lies meant to deceive or wound may exert a positive influence Through their insistent disobedience they assist viewers and readers in re-examining unquestioned institutional trust habituated cultural hierarchies and the deeply inscribed racism and sexism of Canada's settler colonial history Through its attentive look at hoaxical works by Canadian artists Iris Hussler Brian Jungen and Rebecca Belmore photographer Jeff Wall and writers and translators David Solway and Erin Mour this book celebrates the surprising ways hoaxes call attention to human capacities for flexibility adaptation and resilience in a cultural moment when radical empathy and imagination is critically needed

Sharing Breath Sheila Batacharya, Yuk-Lin Renita Wong, 2018-10-31 Treating bodies as more than discursive in social research can feel out of place in academia As a result embodiment studies remain on the outside of academic knowledge construction and critical scholarship However embodiment scholars suggest that investigations into the profound division created by privileging the mind intellect over the body spirit are integral to the project of decolonization The field of embodiment theorizes bodies as knowledgeable in ways that include but are not solely cognitive The contributors to this collection suggest developing embodied ways of teaching learning and knowing through embodied experiences such as yoga mindfulness illness and trauma Although the contributors challenge Western educational frameworks from within and beyond academic settings they also acknowledge and draw attention to the incommensurability between decolonization and aspects of social justice projects in education By addressing this tension ethically and deliberately the contributors engage thoughtfully with decolonization and make a substantial and sometimes unsettling contribution to critical studies in education
