Pasian and Rodney Turner have brought together 26 original chapters from many of the leading international thinkers in project management research. The collection looks at each step in the research stages including research strategy, management methodology, quantitative and qualitative techniques as well as how to share and publish research findings. The chapters offer an international perspective with examples from a wide range of project management applications: engineering, construction, megaprojects, high risk environments and social transformation. Each chapter includes tips and exercises for the research student as well as a complete set of further references. The book is the go-to text for practitioners undertaking research in companies and also doctoral and master's students and their supervisors who are involved in research projects in and for universities.

Business Research Pieter W. Buys, Merwe Oberholzer, 2023-03-14. This book focuses on research methodologies that apply to business research, particularly for researchers and managers embarking thereon to support managerial decision making in the industry. In doing so, the book's objective is to guide business researchers in identifying, defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems. Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry. In addition, by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems, it becomes possible to foster an awareness of such research's potential impact on organizational performance, management, sustainability and resilience. With that attention given to narrowing the gap between theory and practice, which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice-friendly guide to pragmatically sound and academically rigorous business research.
