the same time India's economic development has not been linear and has been impacted by external and domestic shocks some directly related to the financial sector. The economy has also been hit by domestic shocks. The book covers how to strengthen the financial system to support growth and reduce vulnerabilities by discussing the linkages between the financial sector and growth improvements in bank lending to foster productivity and measures to further develop India's corporate bond market. Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28. Over the last ten years, mobile payment systems have revolutionised banking in some countries in Africa. In Kenya, the introduction of M Pesa, a new financial services model, has transformed the banking and financial services industry. Giving the unbanked majority access to the financial services market, it has attracted over 18 million subscribers, which is remarkable given that fewer than 4 million people in Kenya have bank accounts. This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion. It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools, institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity. This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion. It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments. The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya.
