Reshoring Manufacturing Is Coming Home Lean:

Reshoring Ade Asefeso MCIPS MBA,2014-08-14 Reshoring is essentially the opposite of offshoring it is a term used to describe the act of bringing back offshored manufacturing to a country In the beginning of 2011 for the most part most people thought that this was just impossible that there would be no reshoring to the U S or UK that everything was going to China manufacturing was leaving both countries and it will never come back and I think the striking thing is how much that s changed in the last three years You went to China because it was just so cheap you couldn t help it but if you ve got the engineers and people in the U S or UK and the customer base in the U S or UK you d like to be close to the customer It gives you a shorter supply chain
