Liu,2005-07-05 As China has blended market reforms with comprehensive industrial policies most research has focused on the national government s strategies for economic growth However one of the unique characteristics of industrial policy in China is that it involves government intervention at all levels from the political elite all the way down to village leaders This book focuses on the domestic appliance industry and China s three major business groups in this area Haier Hisense and Aucma The Haier Group in particular is one of the most successful and competitive enterprises in China and is very well placed to compete globally as the Chinese economy becomes more integrated with the world trading system This volume shows how industrial policy is formulated at the national level and implemented at the local level and examines how local government frequently intervenes in local enterprises business strategy and management Of practical importance this book provides academics business people and policy makers with valuable insights into the development process and a concrete understanding of the challenges faced in the global business revolution by one of the world s most dynamic economies

Official Gazette of the United States Patent and Trademark Office United States. Patent and Trademark Office,2000 The Evolution of European Manufacturing Industries Bolesław Domański,Grzegorz Micek,Robert Guzik,Krzysztof Gwosdz,Arkadiusz Kocaj,2024-08-29 The book provides a picture of the increasing significance of Central Europe and especially Poland in global production networks discussing the underlying economic social and political factors The key question it answers is to what extent the growth of production and exports results in industrial upgrading towards the manufacturing of more sophisticated high value added products new technologies and the development of non production functions especially design and advanced service capabilities The book shows that Central European manufacturing no longer exhibits the typical features of production activities in the periphery in particular low density and diversity low productivity narrow specialisation in low value added activities and poor local linkages hence limited local value creation and value capture There is still dependence on foreign controlled enterprises in several sectors and limited product innovation which remains a major weakness Further the book assesses the social consequences of the ongoing development of manufacturing capabilities in Poland and its impact on employment conditions including the quality of jobs and level of wages The authors provide insight into relationships between globalisation processes place specific attributes and current economic

policies and as such the book will be of interest to academics policy makers and other stakeholders interested in both peripheral economies and core countries and representing various international organisations dealing with economic transition and development
