original WW2 records and historical fact with thoughtful analysis and insights Using unique maps photographs logbook pages and interviews and anecdotes it crafts a deeply personal story that will resonate with fans of both military history and memoir The Job To Be Done is a heartfelt tribute and a uniquely rewarding reading experience *The Radicals' City: Urban Environment, Polarisation, Cohesion* Ralf Brand,Sara Fregonese,2016-02-24 Bringing together comparative case studies from Belfast Beirut Amsterdam and Berlin this book examines the role of the urban environment in social polarisation processes In doing so it provides a timely and refreshingly innovative voice in the confusing babble on counter terrorism urban conflict and community cohesion Despite their socio political differences these cities are telling cases of how the location and shape of very mundane objects such as rubbish bins bridges clothes stores shopping malls and caf s in addition to the obvious fences walls and barbed wire are often subject to heated controversies and influence the way urban conflict is lived and practised Within a Science and Technology Studies STS theoretical framework the authors provide a systematic analysis of these four cities and provide many concrete and richly illustrated examples of material agency without losing sight of their specific historical political geographical and social conditions The STS angle permits some surprising yet extremely convincing conclusions which are of use not only for a range of practitioners but also to scholars interested in the social shaping processes and the consequences of urban artefacts The authors argue that although architecture and urban design is clearly not the sole cause of conflict and polarisation neither is it completely innocent Conversely it cannot be the silver bullet to solve related problems and to create community cohesion However the materiality of our cities must not be ignored in fact it can and should be enrolled in our efforts The book contains detailed descriptions of such positive cases as inspiration for practitioners as diverse as policy makers architects urban designers planners community workers consultants or police officers October Song Paul Le Blanc,2017-11-14 A panoramic account of the Russian Revolution of 1917 and its aftermath animated by the lives ideas and experiences of workers peasants intellectuals artists and revolutionaries of diverse persuasions October Song vividly narrates the triumphs of those who struggled for a new society and created a revolutionary workers state Yet despite profoundly democratic and humanistic aspirations the revolution is eventually defeated by violence and authoritarianism October Song highlights both positive and negative lessons of this historic struggle for human liberation Public Health for Children Diane DeBell,2015-12-10 This re titled new edition of Public Health Practice and the School age Population has been updated and expanded to include children of all ages Following radical changes in public health provision Public Health for Children Second Edition examines the implications for children and young adults as well as for those who provide care prevention A Southern Criminology of Violence, Youth and Policing Roxana Pessoa Cavalcanti,2020-03-19 A Southern Criminology of Violence Youth and Policing examines public experiences of insecurity and the social impacts of security programmes that aim to address violence in Brazil This book contributes to the emerging field of southern criminology by engaging with the perils faced by people living in favelas in Brazil and critically investigating the

discourse of state actors It combines original ethnographic data with critical analysis to expand understandings of violence and control in urban and postcolonial contexts This study challenges dominant practices and notions of security and control Its objective is to decolonise knowledge and shed light on issues relating to policing coercion and the great socioeconomic historical and spatial inequalities that shape the lives of millions of people in the Global South The findings of this book expose the exacerbation of social problems by the expansion of the penal and crime industry unsettling the applicability and universalism of mainstream managerial criminology The evidence reveals that new modes of securitisation have not addressed long standing issues of sexism racism classism and brutalisation in the police Moreover through the increasing use of methods of control and incarceration security programmes have failed to prevent diverse forms of violence and challenge the expansion of organised crime Instead they have exacerbated the inequalities that affect the most marginalised populations Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies social theory and those interested in learning about the social injustices that exists in the Global South

Social Housing and Urban Renewal Paul Watt,Peer Smets,2017-08-15 Contemporary urban renewal is the subject of intense academic and policy debate regarding whether it promotes social mixing and spatial justice or instead enhances neoliberal privatization and state led gentrification This book offers a cross national perspective on contemporary urban renewal in relation to social rental housing

Stalin Stephen Kotkin,2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler s Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world s largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin s Stalin Waiting for Hitler 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anti capitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself Stalin s obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact

with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin s seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography
