Newsletter | Summer Principal's message

Wow! The school year ended with a flurry of activity (and unfortunately, rain and flooding). Now the flurry turns (at least momentarily) to preparing for next year. Staff will be in the building June 28, closing out this year and preparing for the next. In the midst of this harrowed frenzy we call year-end, we enjoyed a number of "together moments" ranging from our one "Touch of Class" talent show, to our revised grade six farewell, to each of us pulling together amidst the devastation and damage to hit our city. Each time, for a wide array of reasons, the school came together to celebrate our year, and each time, a bond of community permeated each event. Relationship seemed to be a common theme at each and is a critical part of our school's continued success.

I would like to extend formal congratulations to all of the students in grade six as they move onto grade seven. It is always a challenge saying farewell to a departing class, however this year's grade six class left an especially wonderful and memorable mark on our school through events such as We Day and their own version of Mini-We Day, as well as performances at our spring concert and Off the Wall. On behalf of all students and staff, I wish them continued success in their educational journey en route to becoming the graduating class of 2019.

To all students and families, thank you for an incredibly successful year. As my first at Sunalta, bearing witness to the remarkable achievement, citizenship, and character within these hallowed walls, surpassed my already high expectations. Have a wonderful and safe summer and we look forward to seeing you on September 3.

Trevor Barkley, Principal (tbarkley@cbe.ab.ca)

Critical Reflections on Teacher Education Howard Woodhouse,2022-09-28 Critical Reflections on Teacher Education argues that educational philosophy can improve the quality of teacher education programs in Canada the United States and the United Kingdom The book documents the ways in which the market model of education propagated by governments and outside agencies hastens the decline of philosophy of education and turns teachers into technicians in hierarchical school systems A grounding in educational philosophy however enables future teachers to make informed and qualified judgements defining their professional lives In a clear and accessible style Howard Woodhouse uses a combination of reasoned argument and narrative to show that educational philosophy together with Indigenous knowledge systems forms the basis of a climate change education capable of educating future teachers and their students about the central issue of our time

Organizing the 1% William K. Carroll,J.P. Sapinski,2018-12-06T00:00:00Z Canada is ruled by an organized minority of the 1% a class of corporate owners managers and bankers who amass wealth by controlling the large corporations at the core of the economy But corporate power also reaches into civil society and politics in many ways that greatly constrain democracy In *Organizing the 1%* William K Carroll and J P Sapinski provide a unique evidence based perspective on corporate power in Canada and illustrate the various ways it directs and shapes economic political and cultural life A highly accessible introduction to Marxist political economy Carroll

and Sapinski delve into the capitalist economic system at the root of corporate wealth and power and analyze the ways the capitalist class dominates over contemporary Canadian society The authors illustrate how corporate power perpetuates inequality and injustice They follow the development of corporate power through Canadian history from its roots in settler colonialism and the dispossession of Indigenous peoples from their land to the concentration of capital into giant corporations in the late nineteenth century More recently capitalist globalization and the consolidation of a market driven neoliberal regime have dramatically enhanced corporate power while exacerbating social and economic inequalities The result is our current oligarchic order where power is concentrated in a few corporations that are controlled by the super wealthy and organized into a cohesive corporate elite Finally Carroll and Sapinski offer possibilities for placing corporate power where it actually belongs in the dustbin of history

Improving Learning centres on the findings from different areas of education focused research that support evidence
informed teaching and contextualises these results to optimise decision making in schools It also describes the origins and
principles of meta analysis in education and how this identifies the successes in improving learning in classrooms Moreover it
explains the thinking behind the Teaching and Learning Toolkit and similar approaches which seek a big picture overview of
research findings The advantages and disadvantages of this approach are explored with practical examples Additionally it
identifies the issues in using research evidence in education and the steps that can be taken to improve this It is not a manual
on how to conduct a meta analysis instead the focus is on developing understanding of the approach in order to present its
strengths and weaknesses This understanding can advance critical engagement and effective use to improve educational
outcomes for children and young people
