provincial English newspapers Matthews makes the case for the larger issue of the future of local newspapers worldwide She argues that a comprehensive approach to the history of the regional press can result in a conceptualization of the industry in terms of the shift in emphasis between the key elements of state control ownership social influence and production techniques They can be categorized into six distinct stages the local newspaper as opportunistic creation the characterization of the local newspaper as fourth estate the impact of New Journalism the growth of chain control the shock of the free paper and new technology and finally the current picture the search for a new business model

Perspectives on Mass Communication History Wm. David Sloan, 2013-11-05 This unique volume is based on the philosophy that the teaching of history should emphasize critical thinking and attempt to involve the student intellectually rather than simply provide names dates and places to memorize The book approaches history not as a cut and dried recitation of a collection of facts but as multifaceted discipline In examining

the various perspectives historians have provided the author brings a vitality to the study of history that students normally do not gain. The text is comprised of 24 historiographical essays each of which discusses the major interpretations of a significant topic in mass communication history. Students are challenged to evaluate each approach critically and to develop their own explanations. As a textbook designed specifically for use in graduate level communication history courses it should serve as a stimulating pedagogical tool. *History of Crawford and Clark Counties, Illinois* William Henry Perrin, 1883

After the Opium War in 1840 missionaries and businessmen from the West started to set up newspapers and periodicals in China which brought about the birth of China's modern journalism industry. Then China's private newspapers and political party's press are studied which are closely linked with political revolutions and have a far reaching impact on modern Chinese society. What happened to Chinese journalism and communication after the founding of People's Republic of China in 1949. Discovering The News Michael Schudson, 1981-02-13 This instructive and entertaining social history of American newspapers shows that the very idea of impartial objective news was the social product of the democratization of political economic and social life in the nineteenth century. Professor Schudson analyzes the shifts in reportorial style over the years and explains why the belief among journalists and readers alike that newspapers must be objective still lives on. *The Routledge Companion to British Media History* Martin Conboy, John Steel, 2014-09-15 The Routledge Companion to British Media History provides a comprehensive exploration of how different media have evolved within social regional and national contexts.
