A PCT is teaching a patient about HIPAA regulations. Which of the following client statements indicates an understanding of the teaching? -

Correct answer "My provider is required to report if I receive a diagnosis of tuberculosis."

(HIPAA regulations require providers to report instances of communicable diseases, including tuberculosis, to prevent an outbreak in the community.)

A PCT is assisting a nurse to insert an indwelling urinary catheter for a patient. After setting up a sterile field, the technician drops the catheter on clean sheets. Which of the following actions should the technician take? -

Correct answer Obtain another sterile kit.

(The PCT should obtain another sterile kit and discard the catheter because it touched a non-sterile surface.)

A PCT is recording a patient's output and notes that the patient voided a small amount of dark yellow urine. The patient is flushed and reports dry mouth. The technician should identify that these findings indicate which of the following? - **Correct answer** Dehydration.

(With dehydration, urine output decreases, and the urine is concentrated, taking on a dark yellow color. The PCT should report this finding and the amount of urine output over the past 4 hr to the nurse.)

A PCT overhears the son of a patient who is terminally ill asking a nurse to keep the diagnosis secret from his father, and the nurse agrees. The technician should recognize that the nurse's action is a violation of which of the following parts of the Patients' Bill of Rights? - **Correct answer** The right to information about one's condition.

(The PCT should recognize that, according to the Patients' Bill of Rights, a patient's health care team is required to share information with patients about their diagnoses and treatment. By agreeing to keep this patient's
