

## Process Paper

While searching for a topic for National History Day, we stumbled across a couple of war-related topics we could possibly choose from. We found some on Japanese internment camps in the U.S. SALT I and II, and some others. Once top 1 that stood out to us was the atomic bomb used in World War II. We looked further into it and found out about how to this day people still debate if it was right or not to use the bombs, if it was following the “rules” of war, and if it was worth creating thousands of casualties of innocent people. We looked through the internet and found multiple different perspectives of the use of the atomic bomb. After discovering more about the topic, we decided that it would be a great topic that would interest us and others and would relate to the theme of “Debate and Diplomacy”.

We conducted our research by looking into primary and secondary sources. We used databases, books, websites, etc. We wanted to show all views and perspectives from the war and what people thought of the bomb. We learned about the devastations the bombs created, hurting thousands of people, and obliterating the landscapes of Hiroshima and Nagasaki, Japan. The atomic bomb was a weapon of mass destruction, the most powerful at the time. Even after the war ended, more conflicts grew, with the Cold War between the U.S. and the USSR. Once the Internet was created, multiple polls were then available to show people’s viewpoints. This data was very useful for showing how people’s thought of the bomb has changed over time. We incorporated all this information in a neat, eye-catching, and educational way into our website along with pictures and quotes to help expand the readers knowledge and imagination.

We chose to do a website for our presentation because we wanted to express our information through words, pictures, videos, and quotes. Using a website would clearly be better than the other options because of how neat and organized they are. It is easy to access certain information, it is very easy to read, and fun to look at. Websites are also easier for us because we could both access it at the same time even if we weren’t with each other at the current time. The website is also more fun to work with, as we can experiment with it and find cool, new things to add to it.

The Moral Debate on the Use of the Atomic Bomb may not have the largest impact on the world because it is not diplomatic. The bomb did, however, end the war. The atomic bombs themselves have impacted our world in major, major ways. The bomb changed the tide of the biggest war in human history. We can only stand in awe of the creation and destruction that ties to the atomic bomb.
