Nj School Report Cards 2009:

Urban Schools James Deneen, Carmen Catanese, 2011-09-08 Urban Schools Crisis and Revolution describes America's inner city public schools and the failure of most to provide even a minimally adequate education for their students. With numerous examples, James Deneen and Carm Catanese argue that these failures are preventable. Early chapters document the two-tiered character of American public schools, the tragic consequences of failing schools for millions of students, mostly Black and Hispanic, and the financial costs to American society. In later chapters, Deneen and Catanese describe the special problems of inner city schools and the changes in school organization and curriculum needed to overcome them. They also provide examples of schools in severely disadvantaged communities in which such changes have enabled students to succeed academically, graduate, and enter college. In the final chapters, the authors examine the public and non-public school options available to urban parents. They discuss school choice, a hotly debated issue in urban education. The book concludes with a plan consisting of six recommendations for reforming a failing urban school. Charter School Report Card Shawgi

Tell, 2016-04-01 What is a charter school? Where do they come from? Who promotes them and why? What are they supposed to do? Are they the silver bullet to the ills plaguing the American public education system? This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions. It shows that charter schools, as a whole, lower the quality of education through the privatization and marketization of education. The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements. Society and its members need a fully funded, high-quality public education system open to all and controlled by a public authority.

Excellence Through Equity Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26 Excellence Through Equity is an inspiring look at how real-world educators are creating schools where all students are able to thrive. In these schools, educators understand that equity is not about treating all children the same. They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed. To help educators with what can at times be a difficult and challenging journey, Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership: Getting to your core, Making organizational meaning, Ensuring constancy and consistency of purpose, Facing the facts and your fears, Building sustainable relationships. They further emphasize that the practices are grounded in three important areas of research that are too often disregarded: 1. child development, 2. neuroscience, and 3. environmental influences on child development and learning. You'll hear from Carol Corbett Burris, Michael Fullan, Marcus J. Newsome, Paul Reville, Susan Szachowicz, and other bold practitioners and visionary thinkers who share compelling and actionable ideas, strategies, and experiences for closing the achievement gap in your classrooms and school. Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest. As Andy Hargreaves writes in the coda, "The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what

the next generation of America and Americans should become not about a target or ranking that the nation should attain From the Foreword by Archbishop Desmond Tutu Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together Let this bold practical book be a guide and may you travel into this new exciting vista in which every child can succeed Developing Standards-Based Report Cards Thomas R.
