Politically Incorrect Guide to English and American Literature Elizabeth Kantor,2006-11-13 What PC English professors don't want you to learn from Beowulf If we don't admire heroes there's something wrong with us Chaucer Chivalry has contributed enormously to women's happiness Shakespeare Some choices are inherently destructive it's just built into the nature of things Milton Our intellectual freedoms are Christian not anti-Christian in origin Jane Austen Most men would be improved if they were more patriarchal than they actually are Dickens Reformers can do more harm than the injustices they set out to reform T S Eliot Tradition is necessary to culture Flannery O'Connor Even modern American liberals aren't immune to original sin [The Politically Incorrect Guide to Capitalism](#) Robert P. Murphy,2007-04-09 An irreverent look at capitalism that exposes common fallacies and offers simple explanations of complex issues related to capitalism and its role in the world's economy

W. Crocker, III,2011-10-24 Presents an irreverent and humorous look at the four hundred year history of the British empire

The Politically Incorrect Guide to the Founding Fathers Brion McClanahan,2009-06-30 Argues that such figures as George Washington Thomas Jefferson and Ben Franklin laid the foundations of American civil liberty and had a better understanding of problems facing Americans today than the current U S Congress *Politically Incorrect Guide to Darwinism and Intelligent Design* Jonathan Wells,2006-08-21 Darwin is an emperor who has no clothes but it takes a brave man to say so Jonathan Wells a microbiologist with two Ph D's from Berkeley and Yale is that brave man Most textbooks on evolution are written by Darwinists with an ideological ax to grind Brave dissidents qualified scientists who try to teach or write about intelligent design are silenced and sent to the academic gulag But fear not Jonathan Wells is a liberator He unmaskes the truth about Darwinism why it is wrong and what the real evidence is He also supplies a revealing list of Books You're Not Supposed to Read as far as the Darwinists are concerned and puts at your fingertips all the evidence you need to challenge the most closed minded Darwinist **Politically Incorrect Guide to the American Revolution** Larry Schweikart,Dave Dougherty,2017-06-26 The truth about the American Revolution is under attack Despite what you may have

learned in school it wasn't a rich slaveholder's war fought to maintain white privilege. In fact the War of Independence wasn't about maintaining any status quo; it was the world's first successful bottom-up revolution by the people ushering in a new dawn of liberty that history had never seen before. But with left-wingers dominating the teaching of history, where can you go for the true story of the unprecedented events that made the United States the world's greatest nation? Now bestselling historian Larry Schweikart has teamed up with author Dave Dougherty to write the ground-breaking patriotic history you've always wanted to read about the foundation of our unique nation. **The Politically Incorrect Guide to the American Revolution** reveals four key factors that applied only in America, making it impossible to replicate the Revolution anywhere else. Why it matters that the Patriot-fighting force was overwhelmingly Scotch-Irish. The key role of Protestantism, which denominations tended to become Patriots and which Tories. How Americans were different from the Europeans and English even at the outset of the Revolution. How the casualties of the deadliest war in American history are routinely underreported. How our Revolution became a model for hundreds of others that all failed. Schweikart and Dougherty take on the left-wing myths starting with the Marxist narrative of the Revolution in Howard Zinn's nearly ubiquitous *A People's History of the United States* and uncover the truth about America's beginning.

The Politically Incorrect Guide to Socialism Kevin Williamson, 2011-01-10. Argues that the same impulse for control that governed the Soviet Union is present in the American health care and educational systems and that socialism can never work because of human nature.

The Politically Incorrect Guide to the Supreme Court John Yoo, Robert J. Delahunty, 2023-06-27. Justice in the Balance. Alexander Hamilton famously predicted that the judiciary would be the least dangerous branch of government. How's that working out? The Supreme Court stands as arbiter over a country increasingly unable to govern itself. Americans can't agree on the meaning of the Constitution or even the rule of law. Are the nine high priests enthroned in their marble temple the saviors of the Republic or the pallbearers of democracy? Are they defenders of the Constitution as written or super-legislators who make law from the bench? What did the Founders envision when they vested the judicial power in one supreme court? John Yoo, a professor of law at UC Berkeley, and Robert J. Delahunty, a fellow at the Claremont Institute Center for the American Way of Life, provide the answers with an incisive reading of the law and constitutional history. **The Politically Incorrect Guide to the Supreme Court** explains the turbulent history of the court's early years and the eventual triumph of judicial supremacy. The Bill of Rights, how the Court has defined free speech, freedom of religion, and the right to bear arms. The Court's notorious rulings and how they were overturned from *Dred Scott* to *Roe v. Wade*. Why court-packing is a constant temptation for Democratic presidents. The Supreme Court's best and worst justices and what qualities distinguished them. The future of the Supreme Court. Will it be the rubber stamp of corrupt administrations or the ultimate watchdog protecting our nation's liberties? **The Politically Incorrect Guide to the Supreme Court** offers a penetrating and irreverent account of the justices, ideologues and cowards, geniuses and mediocrities, all of them thoroughly human, and a fascinating analysis of a Court that

has swung like a pendulum from preserving the Republic to undermining government by the people and back to defending the Constitution Sprightly informative and powerfully argued this book is guaranteed to give the reader a deeper understanding of America's most powerful judicial body **Politically Incorrect Guide to the Bible** Robert J.

Hutchinson, 2007-10-16 In the beginning the Bible was regarded as the Good Book but today it is under relentless attack from left wing audiences novelists and screenwriters to justify their own political agendas But fear not award winning religious journalist Robert J Hutchinson refutes the mockers skeptics and deniers in his new book **The Politically Incorrect Guide to the Bible** Using historical evidence and thorough analysis Hutchinson not only proves the Bible to be true and the liberal Left wrong but also takes the truth one step further showing how the Bible built and shaped Western civilization The Bible is the source for the Western ideas of justice science and democracy Hutchinson argues and without it Western civilization would not exist **Politically Incorrect Guide to the Constitution** Kevin Gutzman, 2007-06-11

The Constitution of the United States created a representative republic marked by federalism and the separation of powers Yet numerous federal judges led by the Supreme Court have used the Constitution as a blank check to substitute their own views on hot button issues such as abortion capital punishment and same-sex marriage for perfectly constitutional laws enacted by We the People through our elected representatives Now **The Politically Incorrect Guide to the Constitution** shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the constitutional law imposed upon us since then Instead of the system of state level decision makers and elected officials the Constitution was intended to create judges have given us a highly centralized system in which bureaucrats and appointed not elected officials make most of the important policies In **The Politically Incorrect Guide to the Constitution** Professor Kevin Gutzman explains how the Constitution Was understood by the founders who wrote it and the people who ratified it Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people Slid from the Constitution's republican federal government with its very limited powers to an un-republican judgeocracy with limitless powers How the Fourteenth Amendment has been twisted to use the Bill of Rights as a check on state power instead of on federal power as originally intended The radical inconsistency between constitutional law and the rule of law Contends that the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it As Professor Gutzman shows constitutional law is supposed to apply the Constitution's plain meaning to prevent judges presidents and congresses from overstepping their authority If we want to return to the founding fathers vision of the Republic if we want the Constitution enforced in the way it was explained to the people at the time of its ratification then we have to overcome the received wisdom about what constitutional law is **The Politically Incorrect Guide to the Constitution** is an important step in that direction **Politically Incorrect Guide to Western Civilization** Anthony Esolen, 2008-05-27 Everything you should know but PC professors won't teach about Western

heritage Western civilization is the envy of the globe It has given to the world universally accepted understandings of human rights rooted in Judeo Christian principles created standards for art music and literature that have never been equaled and originated political and social systems that have spread all across the planet Political correctness now obscures these and other truths about Western civilization Leftists and Islamic jihadists find common cause in assailing Western colonialism imperialism and racism as its defining characteristics Guilt ridden Western leaders and public figures speak of their cultural patrimony in disparaging terms they would never dare to use about a non Western culture And in universities multicultural minded professors flatter students into believing they have nothing really to learn from Sophocles or Shakespeare But now Professor Anthony Esolen one of the team teachers of Providence College s esteemed Development of Western Civilization Core Curriculum has risen to the West s defense The Politically Incorrect Guide TM to Western Civilization takes on the prevailing liberal assumptions that make Western civilization the universal whipping boy for today s global problems and introduces you to the significant events individuals nations ideas and artistic achievements that make Western civilization the greatest the world has ever known Today defending the West has become an urgent imperative if we don t value what we have and what we have inherited we will surely lose it The Politically Incorrect Guide tm to Western Civilization is an essential sourcebook for that defense
