Understanding Nationalism

Definitions of Nationalism

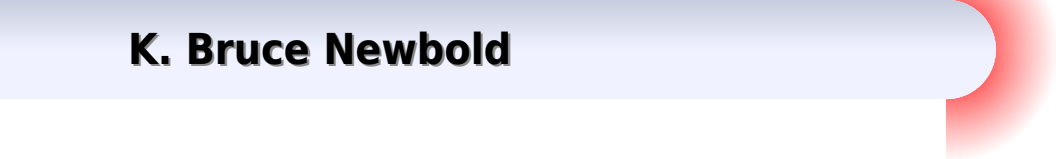

- Nationalism is a political ideology that emphasizes the interests and culture of a particular nation, often in opposition to foreign influence.
- It can manifest in various forms, including civic nationalism, which focuses on shared citizenship and values, and ethnic nationalism, which is based on shared heritage and ethnicity.
- Historical context: Nationalism gained prominence in the 19th century, particularly during the French Revolution, as a response to imperialism and colonialism.
- Nationalism can be both a unifying force and a source of conflict, as it can lead to exclusionary practices against minority groups.
- The rise of nationalism in the 20th century was often linked to the formation of nation-states and the quest for self-determination.
- Modern examples include movements for independence in regions like Catalonia and Scotland, highlighting the ongoing relevance of nationalism.

Nationalism Past and Present

- The evolution of nationalism from a revolutionary force in the 18th and 19th centuries to its current manifestations in populist movements.
- Case study: The impact of nationalism in post-colonial states, where newly independent nations grappled with national identity.
- The resurgence of nationalism in the 21st century, often characterized by anti-globalization sentiments and a focus on sovereignty.

SCM Studyguide: Philosophy and the Christian Faith Ben Pugh ,2018-12-04 The challenges that Western culture keeps posing to the Christian faith are ever new The goal posts keep changing This study guide will equip theology students to understand the culture shaping beliefs that are driving the kinds of questions it brings to faith It will be an historical overview of the key stages in the history of Western philosophy with each section carefully tracing the genealogical line of ideas and the Christian responses to them right up to the present day For most theology students learning abstract philosophical concepts involves literally learning a new language a language that the initiated converse in with ease but which leaves the uninitiated baffled Thus each chapter in this study guide opens with a glossary of terms Throughout the studyguide students are encouraged to reflect on the ways in which what has been learned might be applied in both explicitly theological and wider cultural contexts for example they might be asked to think of a film or book that seems to express elements of existentialism or postmodernism or to describe how something very like the extreme subjectivity of idealism can sometimes shows itself in Sunday morning worship

 Kakutani,2024-02-20 An urgent examination of how disruptive politics technology and art are capsizing old assumptions in a
 great wave of change breaking over today s world creating both opportunity and peril from the Pulitzer Prize winning critic
 and author of the New York Times bestseller The Death of Truth In this dazzling and brilliant book Michiko Kakutani explains
 the cascading chaos of our era and points to ways that we can regain some stability Walter Isaacson author of Elon Musk The
 twenty first century is experiencing a watershed moment defined by chaos and uncertainty as one emergency cascades into
 another underscoring the larger dynamics of change that are fueling instability across the world Since the global financial

crisis of 2008 people have increasingly lost trust in institutions and elites while seizing upon new digital tools to sidestep traditional gatekeepers As a result powerful new voices once regarded as radical unorthodox or marginal are disrupting the status quo in politics business and culture Meanwhile social and economic inequalities are stoking populist rage across the world toxic partisanship is undermining democratic ideals and the internet and AI have become high speed vectors for the spread of misinformation Writing with a critic s understanding of cultural trends and a journalist s eye for historical detail Michiko Kakutani looks at the consequences of these new asymmetries of power She maps the migration of ideas from the margins to the mainstream and explores the growing influence of outsiders those who have sown chaos and fear like Donald Trump and those who have provided inspirational leadership like Ukraine s president Volodymyr Zelensky At the same time she situates today s multiplying crises in context with those that defined earlier hinge moments in history from the waning of the Middle Ages to the transition between the Gilded Age and the Progressive Era at the end of the nineteenth century Kakutani argues that today s crises are not only signs of an interconnected globe s profound vulnerabilities but also stress tests pointing to the essential changes needed to survive this tumultuous era and build a more sustainable future
