Regaining Body Wisdom - a Multidimensional View Reiki Master Silvia Casabianca, 2008-02 For Silvia Casabianca most of our remedies for discomfort and disease are at odds with the body's natural responses to various types of invasion or imbalance In her view much of what is labeled conventional medicine overlooks and often hampers the necessary and natural communication between organs and the flow of vital energy that maintains health The first section of the book *The New Perspectives* surveys holistic approaches to well being The second section *The Body Wisdom* explores the various bodily systems and illustrates their functions and interrelationships She elaborates the concept of an inner healer which is the key to physical and psychic well being Finally in the third section Casabianca a Reiki Master introduces readers to Reiki and the Art of Healing sharing with the reader her fascination for the multidimensional human body and current knowledge about health and illness gained through being a physician a psychotherapist and a Reiki teacher **Heartminded: Conscious**

From Polarisation to Multispecies Relationships Janet J. McIntyre-Mills, Yvonne Corcoran-Nantes, 2021-08-05. This book explores the concept of multi-species relationships and suggests critical systemic pathways to protect shared habitats. This book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk. This book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment. This book explores a priori norms and a posteriori measures and indicators to include and protect multiple species. This book aims to strengthen institutional capacity and powers to address and extend the UN 2030 Sustainable Development Agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide. This book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation-state to support living systems of which we are a strand.

THE EGO HAS LANDED Athena Park, 2021-09-13. Humanity has sought identification of self through the guise of the ego yet not fully understanding its placement. Our ego, the identity of oneself, has been believed to be the desire for outer acceptance, validating its own worth. The ego is our shadow self and can be seen as the mirror reflection in ourselves and others. Who are you without your ego? What masks do you require to hide your true authentic self? What can you say about yourself? Do you know who you are and what you represent? Can you identify with whom you project out into the world? Are you aware that your ego has manipulated who and what you've identified about yourself in conjunction as the illusion? Humanity is undergoing a spiritual evolution where every human being is responsible for their own soul's evolution. Humans must realize that to remain of this world, we must ascend to a higher consciousness and enlightenment, becoming the dictator of our own lives, knowing. Are you willing to delve into the hidden aspects of yourself by going on a treasure quest that will guide you back to your natural state of truth? Truth is at the heart of the matter, the one beloved. What
