Marginality in the Urban Center Peary Brug,Zachary S. Ritter,Kenneth R. Roth,2018-12-22 This book examines the increasing marginalization of and response by people living in urban areas throughout the Western Hemisphere and both the local and global implications of continued colonial racial hierarchies and the often dire consequences they have for people perceived as different However in the aftermath of recent U S elections whiteness also seems to embody strictures on religion ethnicity country of origin and almost any other personal characteristic deemed suspect at the moment For that reason gender race and even class collectively may not be sufficient units of analysis to study the marginalizing mechanisms of the urban center The authors interrogate the social and institutional structures that facilitate the disenfranchisement or downward trajectory of groups and their potential or subsequent lack of access to mainstream rewards The book also seeks to highlight examples where marginalized groups have found ways to assert their equality No recent texts have attempted to connect the mechanisms of marginality across geographical and political boundaries within the Western Hemisphere *I Had No Idea* Benjamin H. Dotger,2013-03-01 Clinical simulations provide teachers with opportunities to enact professional knowledge skills and dispositions Building on medical education s long standing use of standardized patients this book infuses standardized individuals and clinical simulations into teacher education As participating teachers engage with standardized parents students paraprofessionals and community members they encounter a variety of situations common to K 12 teaching This book provides teacher educators and professional development facilitators with the background knowledge training procedures for standardized individuals logistical steps and all documents necessary for successful implementation of twelve different clinical simulations This book is constructed for teacher educators and school district personnel who intend to facilitate clinical simulations for teachers Teachers serving as participants in the clinical simulations should consult the separate text *Clinical Simulations for Teacher Development A Companion Manual for Teachers*

Ridykeulous Presents Ridykeulous,2025-03-11 The first exhibition catalogue of the acclaimed queer feminist curatorial initiative Ridykeulous marking the occasion of their first institutional presentation in Europe at Nottingham Contemporary Founded in 2005 Ridykeulous mounts exhibitions and events primarily concerned with queer and feminist art This publication will be the first exhibition catalogue by Ridykeulous joined by Sam Roeck and will accompany the fall 2023 exhibition Ridykes Cavern of Fine Inverted Wines and Deviant Videos at Nottingham Contemporary With newly commissioned texts by curator Lia Gangitano and Alexandro Segade of the artist collective My Barbarian the catalogue will be complemented by a conversation between Ridykeulous members Nicole Eisenman A L Steiner and Sam Roeck providing insights into the collective s thinking politics behind the scenes notations and methods of exploration as well as an introduction by Nottingham Contemporary s Chief Curator Nicole Yip Using humor to critique the art world and

heteropatriarchal culture at large. Ridykeulous often reinvents language to reflect their sensibilities and concerns composing communiqu s screeds and diatribes across various media. The exhibition features an intergenerational mix of 30 contemporary visual artists working across film, video, installation, sculpture, and performance. Playfully proposing queer fabulosity as a critical intervention in the capitalist spectacle, the exhibition seeks to erode the secondary positioning of LGBTQ art and artists as alternative. Designed by the Z-rich based Studio Marie Lusa, the publication will evoke the textual feeling of a zine with over 100 full color and black and white image plates.

Hispanic Sergeants Major "Sergeantos Mayores" Past to Present 3rd Edition Amador Medina, 2014-06-02. General history medal of honor winners' biographies of hispanic sergeants majors in the United States Army.

All in Your Head Mara Buchbinder, 2015-06-05. Although pain is a universal human experience, many view the pain of others as private, resistant to language and therefore essentially unknowable. And yet, despite the obvious limits to comprehending another's internal state, language is all that we have to translate pain from the solitary and unknowable to a phenomenon richly described in literature, medicine, and everyday life. Without denying the private dimensions of pain, *All in Your Head* offers an entirely fresh perspective that considers how pain may be configured, managed, explained, and even experienced in deeply relational ways. Drawing on ethnographic fieldwork in a pediatric pain clinic in California, Mara Buchbinder explores how clinicians, adolescent patients, and their families make sense of puzzling symptoms and work to alleviate pain. Through careful attention to the language of pain, including narratives, conversations, models, and metaphors, and detailed analysis of how young pain sufferers make meaning through interactions with others, her book reveals that, however private, pain may be making sense of it is profoundly social.

Tailoring Surfaces: Modifying Surface Composition And Structure For Applications In Tribology, Biology And Catalysis Nicholas D. Spencer, 2011-03-08. The focus of this book is surface modification with the goal of tailoring materials for a specific application. By means of this approach, ideal bulk properties of a material, such as its tensile strength, temperature stability, density, or even cost, can be combined with optimized surface properties such as hardness, biocompatibility, low or high friction, or adhesion, water repellency, or wettability, or catalytic activity. The works of the author, many of his crucial papers, are included; they deal with the understanding and modification of surfaces and span fields including catalysis, analytical surface science, self-assembled monolayers, tribology, biomaterials, superhydrophobicity, and polymer coatings.
