

How to introduce yourself in the interview?

You're in the reception of your dream company for a job interview, dressed in the best formal you had with good hair and polished shoes, but one thing in mind will you be able to crack this interview and get this JOB?

These happen almost to everyone and it is very common. Few things are quite as dismaying as job interviews. You approach them knowing that unless you match the employer's expectations you're not going to land that sweet gig. Luckily, there are plenty of things you can do to ensure you'll make a good impression when the stakes are high. Below are few points that one should ponder while giving any interview.

- Introduce yourself to the interviewer in a professional way.
- Be straight and valid when describing you in a job interview.
- Practice your reply but make one thing sure it should be natural and not sound rehearsed.
- Tell the only information you want to convey. Begin by talking about past job experiences and achievement.
- Mention your strengths and abilities.
- Days before the interview check the details of the desired company properly on company's website and glassdoor.
- Make sure you avoid politics or anything potentially divisive.
- Tell them how your skills have made a distinction in your professional life.

And at last let's talk about what you don't have to tell the interviewer when they ask you "Tell Me Some Thing About Yourself". Most people get nervous & they don't

Bell the CAT Tony Xavier, 2024-12-24 Every year lakhs of students take the Common Admission Test CAT arguably the third most challenging entrance examination in India after the JEE and the UPSC to secure a seat at one of the prestigious IIMs or other top tier management institutes But what are the odds of making it 1 in 100 It is because most

aspirants do not possess one of two things the tools to develop the immense mental strength that is needed to crack such high stakes exams or precise strategies to tackle the different challenges the exam throws up If however they possess these two skills they might miss out on the third part information What makes this test different from the JEE or UPSC exams is that selection is not based on the test alone but on the academic and professional profile of the applicants as well Many aspirants lack this critical information Most CAT preparation books are focused on the specific sections of the exam and therefore fail to provide a holistic understanding of what the exam really is Bell the CAT is one of a kind since unlike all the other books in the Indian MBA test prep space it goes beyond focusing on specific subjects and delves deep into the things that prevent test takers from making it to an IIM The book intends to provide aspirants with all the skills beyond math logic and English mental conditioning test taking strategies profile building and interview prep that are necessary not just to crack CAT and make it to some of the most elite institutions in the country the IIMs but also to get recruited by elite employers in different domains
