In Japan it's called the Ghosn Shock: the stunning arrest of Carlos Ghosn the jet setting CEO who saved Nissan and made it part of a global automotive empire. Even more shocking was his daring escape from Japan packed into a box and put on a private jet to Lebanon after months spent in a Japanese detention center subsisting on rice gruel. This is the saga of what led to the Ghosn Shock and what was left in its wake. Ghosn spent two decades building a colossal partnership between Nissan and Renault that looked like a new model for a global business but the alliance's shiny image fronted an unsteady tense operation. Culture clashes infighting among executives and engineers dueling corporate traditions and government maneuvering constantly threatened the venture. Journalists Hans Greimel and William Sposato have followed the story up close with access to key players including Ghosn himself. Veteran Tokyo based reporters they have witnessed the end of Japan's bubble economy and attempts at opening Japan Inc to the world. They've seen the fraying of keiretsu Japan's traditional skein of business relationships and covered numerous corporate scandals of which the Ghosn Shock and Ghosn's

subsequent escape stand above all Expertly reported Collision Course explores the complex suspicions around what and who was really responsible for Ghosn's ouster and why one of the top executives in the world would risk everything to escape the country It explains how economics history national interests cultural politics and hubris collided crumpling the legacy of arguably the most important foreign businessman ever to set foot in Japan This gripping unforgettable narrative full of fascinating characters serves as part cautionary tale part object lesson and part forewarning of the increasing complexity of doing global business in a nationalistic world Car Wars Jonathan Mantle,1997-10 Ferdinand Porsche widely revered as the inventor of the VW Beetle stole the plans for the people's car from a Czech designer with Hitler's help General Motors manufactured jet engines for Hitler's army then got 33 million in tax exemptions from the U S government for damages sustained by Allied bombing of its German factories Packed with these and other tales of greed and treachery Car Wars is a must read lesson in industrial strategy and a fascinating behind the scenes history of the world's best known automobiles
