Remember when you used to pay for things

When computer software was almost as much as your new computer

Times have certainly changed

Today many companies are giving you all that stuff you used to pay hundreds of dollars for for free

What s the catch

There has to be a catch

Sometimes there definitely is a catch it s free but you have to watch a 30 second commercial every five minutes

Or it s free but you have to pay a subscription once you start to really like it

In the case of Google Apps it truly is free

No annoying ads

No money grabs

Nothing

For the price of nothing you are getting online software that is on par with the Office suite you grew to love and pay hundreds of dollars for

That means you get writing software spreadsheet software presentation software and more and you don t pay a dime

Now you see why so many people are making the switch to Google Apps

Who wouldn t want to pay nothing for good software

If you are interested in learning more about it or you are ready to make the leap and become a free user then this guide will
