War, Police and Assemblages of Intervention Jan Bachmann, Colleen Bell, Caroline Holmqvist, 2014-11-13 This book reflects on the way in which war and police policing intersect in contemporary Western led interventions in the global South The volume combines empirically oriented work with ground breaking theoretical insights and aims to collect for the first time thoughts on how war and policing converge amalgamate diffuse and dissolve in the context both of actual international intervention and in understandings thereof The book uses the caption WAR POLICE to highlight the distinctiveness of this volume in presenting a variety of approaches that share a concern for the assemblage of war police as a whole The volume thus serves to bring together critical perspectives on liberal interventionism where the logics of war and police policing blur and bleed into a complex assemblage of WAR POLICE Contributions to this volume offer an understanding of police as a technique of ordering and collectively take issue with accounts of the character of contemporary war that argue that war is simply reduced to policing In contrast the contributions show how both historically and conceptually the two are always already connected Contributions to this volume come from a variety of disciplines including international relations war studies geography anthropology and law but share a critical poststructuralist approach to the
