Coordination with the steering chairs Dr Kadek Suranata S Pd M Pd Kons and the members of organizing committee is essential for the success of the conference. We sincerely appreciate all the Advisory Boards for the constant support and guidance. It was also a great pleasure to work with such an excellent organizing committee team for their hard work in organizing and supporting the conference. In particular the Scientific Committee led by Cand Dr Robbi Rahim M Kom have completed the peer review process of technical papers and made a high quality technical program. We are also grateful to Students Conference chairs were leading by Ida Ayu Made Diah Paramiswari for their support and all the authors who submitted their papers to the First ICTES 2018. We strongly believe that ICTES conference provides a good forum for all academicians, researchers and practitioners to discuss all Educational science and technology aspects that are relevant to issues and challenge for sustainability in the 4th industrial revolution. We also expect that the future ICTES conference will be as successful and stimulating as indicated by the contributions presented in this volume. **Science Abstracts**, 1965

Food Processing Stephanie Clark, Stephanie Jung, Buddhi Lamsal, 2014-06-03 *FOOD PROCESSING* Food Processing Principles and Applications Second Edition is the fully revised new edition of this best selling food technology title. Advances in food processing continue to take place as food scientists and food engineers adapt to the challenges imposed by emerging pathogens, environmental concerns, shelf life, quality and safety as well as the dietary needs and demands of humans. In addition to covering food processing principles that have long been essential to food quality and safety, this edition of *Food Processing Principles and Applications* unlike the former edition covers microbial enzyme inactivation kinetics, alternative food processing technologies as well as environmental and sustainability issues currently facing the food processing industry. The book is divided into two sections: the first focusing on principles of food processing and handling and the second on processing technologies and applications. As a hands on guide to the essential processing principles and their applications covering the theoretical and applied aspects of food processing in one accessible volume, this book is a valuable tool for food industry professionals across all manufacturing sectors and serves as a relevant primary or supplemental text for students of food science. **The Complete Book of Colleges, 2013 Edition** Princeton Review, 2012-08-07 Profiles every four year college in the United States providing detailed information on academic programs, admissions requirements, financial aid services, housing, athletics, contact names and campus life.
