Behavioral Finance in the Digital Era Elżbieta Kubińska, Magdalena Adamczyk-Kowalczyk, Anna Macko, 2023-12-18

Due to swift technological changes and the resultant digital revolution a wide range of new digital financial products and services have emerged in the financial markets as witnessed in the context of the fintech sector the economics of blockchain and NFT issuance This book takes an in depth look at the challenges faced by individuals who make investment decisions in a rapidly changing financial world and presents a concise and thorough overview of the multifaceted approach to investment and savings behavior It explores behavioral digital finance referencing the latest theories in economic psychology and financial markets and provides an analysis of the process of saving and investing in the context of our new digital reality where an understanding of human AI interaction and its benefits and threats is extremely important It combines an accessible overview of classical and new behavioral theories models of financial decision making as well as an analysis of the new trends in financial decision making Special attention is given to financial decision support systems and the role of financial advice services which are of growing importance due to their increasing complexity and difficulty The book combines theoretical considerations and wide reaching empirical analyses from a representative sample of international respondents It deals with the individual approach to human risk taking and human AI interaction and its benefits and threats The book explores how people react to algorithms what drives algorithm aversion and appreciation and how understanding of those mechanisms can be employed to improve financial advisory systems and also considers the impact of the Covid 19 pandemic on financial behavior Chapter 4 of this book is freely available as a downloadable Open Access PDF at www.taylorfrancis.com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 International license

Fundamental Analysis, Behavioral Finance and Technical Analysis on the Stock Market Timo

Schlichting, 2009-07-31 Diploma Thesis from the year 2008 in the subject Business economics Investment and Finance grade 2 0 University of Applied Sciences Essen language English abstract Historically considered fundamental and technical analyses have always competed often leading to advocates that ideologically judge either a fundamental analysis or technical analysis to be the one and only analyzing concept Behavioral finance is a relatively new scientific approach to explain psychological anomalies on the stock market but is also more and more often considered to be able to compete with both fundamental and technical analyses Still do these analysis concepts really compete in practice or could they actually supplement each other with their respective strengths Taking the turbulent stock market phases as well as these unanswered questions about fundamental analysis behavioral finance and the technical analysis into consideration this thesis ultimately pursues two general objectives Firstly fundamental analysis behavioral finance and technical analysis should be scientifically examined in terms of their premises analysis approaches empirical evidences as well as strengths and weaknesses Secondly it should be examined as to whether the fundamental analysis behavioral finance and technical analysis have theoretical and

practical synthesis capabilities that could be used for developing a synthesis concept The synthesis concept should combine the respective strengths and eliminate the respective weaknesses of each of the three analysis concepts Fundamental analysis behavioral finance and technical analysis are examined in detail Empirical studies should prove if and by which approaches the analysis concept is able to predict future stock prices In order to be able to develop a synthesis concept each analysis concept is evaluated by a SWOT analysis pursuing the objective of determining the respective strengths weaknesses opportunities and threats of the

Introducing *Essentials of Investments* 9th Global Edition by Zvi Bodie, Alex Kane, and Alan J. Marcus. We are pleased to present this Global Edition which has been developed specifically to meet the needs of international investment students. A market leader in the field, this text emphasizes asset allocation while presenting the practical applications of investment theory without unnecessary mathematical detail. The ninth edition includes new coverage on the roots and fallout from the recent financial crisis and provides increased content on the changes in market structure and trading technology. Enhancements to this new Global Edition include:

- New On the market front boxes highlight important investment concepts in real world situations across the globe to promote student thinking without taking a full case study approach.
- Topics include short selling in Europe, Asia, credit default swaps, and the debt crisis in Greece, and include examples from Commerzbank, JP Morgan, Facebook, Coca Cola, Santander, The European Energy Exchange, plus many more.
- Revised worked examples illustrate problems using both real and fictional scenarios from across the world to help students develop their problem solving skills.
- Regional examples include Hutchinson Whampoa, Asia, The Emirates Group, The Middle East, and KLM Royal Dutch Airlines, The Netherlands.
- Revised end of chapter material includes brand new global questions and global internet exercises that feature currencies, companies, and scenarios from Europe, Middle East, Africa, and Asia to increase engagement for international students.

Global Edition of Connect Plus Finance, McGraw Hill's web-based assignment and assessment platform with eBook access, helps students learn faster, study more efficiently, and retain more knowledge. This Global Edition has been adapted to meet the needs of courses outside of the United States and does not align with the instructor and student resources available with the US edition.

The Essentials of Trading John Forman, 2006-04-20 Praise for *THE ESSENTIALS OF TRADING*: This is the book I wish I had when I began a training program for new traders. John's familiarity with trading and traders is evident in this text. His incorporation of exercises and use of examples bring topics to life, maintaining the interest of even the most hyperactive traders. Brett N. Steenbarger, PhD, author of *The Psychology of Trading*. *The Essentials of Trading* masterfully teaches the novice how to conceptualize, implement, and manage the important fundamentals that form the building blocks of successful trading. Because the book and its examples have been classroom tested at both the undergraduate and graduate levels, the pace of presentation is ideal for a full or partial classroom exposure to Internet-based
