Dorrance,2025-05-20 Read this book to learn facts which support religious beliefs why and how God communicates with humanity why bad things happen to good people about the evidence for God souls and an afterlife why the evidence is ignored by science and Christianity about the continuation of thinking seeing and hearing near death experiences when the body is clinical dead what mediums channeling and between lives regression reveal about life after death what the experience of empathy reveals about you about contemporary Jesus like spiritual teachers where and how to experience your soul why human behavior wars conflicts and crimes has not improved despite science s achievements The Re-Enlightenment Carole and David McEntee-Taylor,2011-11-01 Who are we Why are we here Is there a god The world we currently live in is characterised by its conflicting cultures with their diverse political social and religious views Add to this the growing climatic problems and the increasing gap between those who have and those who have not and this world seems

a very unstable place The majority of us not only feel powerless to prevent this but also find it hard to accept some of the reasons we are given to explain this pain and suffering Religions spiritualism politics and science have all provided competing explanations but have not provided any real proof Furthermore the world as we currently know it is a result of those competing explanations We are all citizens of this world and as such have a vested interest in its future We all have questions about why we are here and we are all entitled to the answers There is something in this book for everybody from those who are not satisfied with the way the world is and think there has to be a better way to those who just wish to know why we are really here
