

COLLEGE BIOGRAPHY

SAMPLE

Carl Jackson is a motivated and diligent sophomore at the University of Michigan, Ann Arbor. He is currently a Mechanical Engineering major with a minor in Mathematics. He has a strong track record of excellence in both computational mathematics as well as the engineering field, having finished all of his high school-level math courses by the time he reached 6th grade. Afterwards, he took advanced and invariant calculus courses at his local community college. As the winner of the Stonebrood County Science and Engineering fair two years in a row from 2016-2017, he also has many plans for the future which involve combining sustainable energy with hands-free innovation.

Carl graduated from Roosevelt State High School in 2015 with a perfect 4.0 GPA. He served as president of the Debate Team and the Road Scholars from his sophomore to senior year in college. During his time in leadership, he helped to restructure the organizational system and balance the budget through careful accounting and recordkeeping. During his junior year, he also took a service trip to Guatemala, where he helped to rebuild houses and help construct temporary shelter for citizens affected by hurricanes. This experience helped to shape his interest in mechanical engineering in college.

Upon matriculating at the University of Michigan, Carl immediately started his involvement in community service and on-campus engagement. He worked as an election volunteer to encourage fellow students to vote, and also helped to organize on-campus debates to discuss pertinent issues to student life. Additionally, he is an active member of the Young Engineers club, utilizing his academic skills and experience to help mentor elementary and middle school students interested in the sciences. He look forward to using his experiences to obtain a career in industry where he can help further sustainability and efficiency in the workplace.
