Physical Science Memorandum Preparation Test:

Live Fire Testing of the F-22 National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Committee on the Study of Live Fire Survivability Testing of the F-22 Aircraft, 1995-08-17 The Live Fire Test Law mandates realistic survivability and lethality testing of covered systems or programs A provision of the law permits the Secretary of Defense to waive tests if live fire testing would be unreasonably expensive and impractical Though no waiver was requested before the F 22 program entered engineering and manufacturing development the Defense Department later asked that Congress enact legislation to permit a waiver to be granted retroactively Rather than enact such legislation Congress requested a study to explore the pros and cons of full scale full up testing for the F 22 aircraft program The book discusses the origin of testing requirements evaluates the practicality affordability and cost benefit of live fire tests and examines the role of testing modeling and data bases in vulnerability assessment
