is thoroughly updated and revised and covers all aspects of survey research. It features expanded coverage of mobile phones, tablets, and the use of do it yourself surveys, and Dillman's unique Tailored Design Method is also thoroughly explained. This invaluable resource is crucial for any researcher seeking to increase response rates and obtain high quality feedback from survey questions. Consistent with current emphasis on the visual and aural, the new edition is complemented by copious examples within the text and accompanying website. This heavily revised Fourth Edition includes strategies and tactics for determining the needs of a given survey, how to design it, and how to effectively administer it. How and when to use mail, telephone, and Internet surveys to maximum advantage. Proven techniques to increase response rates. Guidance on how to obtain high quality feedback from mail, electronic, and other self-administered surveys. Direction on how to construct effective questionnaires, including considerations of layout. The effects of sponsorship on the response rates of surveys. Use of capabilities provided by newly mass used media interactivity. Presentation of aural and visual stimuli. The Fourth Edition reintroduces the telephone, including coordinating land and mobile. Grounded in the best research, the book offers practical how-to guidelines and detailed examples for practitioners and students alike.

Disaster Management R. Subramanian, Disaster Management is an intended textbook for students pursuing a first and intermediate course on the subject in any undergraduate programme, especially engineering courses like civil, structural, geotechnical engineering, and other specialized courses on the subject. The latest AICTE and the earlier UGC model curriculums have been extensively consulted to design the contents of the book. The main objective of the book is to create awareness about and understanding of disasters and disaster mitigation measures. It deals with the subject in a structured manner. Starting with an introductory chapter, the book goes to classification of disasters, separate chapters on natural and man-made, anthropogenic disasters, basic management concepts, four cycle disaster management, organizational structures in India and other countries, NGOs, ethical issues, and case studies. It follows the assurance of learning model by enumerating the learning objectives in every chapter, followed by detailed exposition of each objective and ends with a rich suite of assessment questions.
