Household expenditures across the border generally met the needs of all. But persistent shortages of essential goods and services were reported in the general budget study of 1990, which at that time included, and spent, quarters for adjustment and training following the collapse of the state and the general budget. Although the adjustment period in the immediate post-transition in the period before 1990, there was a gap between the state and the general budget, and the general budget was not able to meet the needs of the population.

Multi-Sector Engagement Model (MSEM) is a strategy that promotes meaningful engagement across sectors in a particular setting and community. It is based on the principle that shared goals and efforts are necessary to achieve meaningful change. The approach involves identifying stakeholders and partners in the community, building relationships with them, and then working together to address a common goal. The MSEM is a flexible and adaptable approach that can be used in a variety of settings and communities. It is a powerful tool for promoting positive change and achieving shared goals.
