Circular - Office of Education United States. Office of Education, 1961 The Publishers' Trade List Annual ,1902 *Simulations in the Political Science Classroom* Mark Harvey, James Fielder, Ryan Gibb, 2022-08-31 This book is premised on the assumption that games and simulations provide welcome alternatives and supplements to traditional lectures and class discussions especially in political science classrooms where real world circumstances provide ideal applications of theory and policy prescriptions Implementing such an active learning program however is sometimes daunting to overburdened professors and teaching assistants This book addresses the challenges of using games and simulations in the political science classroom both online and in person Each chapter offers a game or simulation that politics teachers can use to teach course concepts and explains ways to execute it effectively In addition the authors in this volume make a proactive case for games and simulations Each chapter offers research to evaluate the

effectiveness of the activity and pedagogical design best practices Thus the book not only serves as a game design resource but also offers demonstrable support for using games and simulations in the political science classroom Aimed at teachers at all levels from high school through college the book may be especially appealing to graduate students entering teaching for the first time and open to new teaching and learning approaches UpSC Civil Services Preliminary Exam-2021 27 Years
