

Strongly recommend that you prepare a handwritten summary of this assignment.

Statistical concepts such as SD, standard error, or confidence interval are not strictly correct when applied to small populations (say, 100) that change in size (the more some populations are drawn). Hence, there is a need for the statistical concepts that apply to a population of nearly 8 million, but should I be thinking of a 8.8 million population when we investigate several statistical effect and the behavior that the sample populations suggest themselves, what effect effect does the population size make on the analysis?

Exercise 2.1: Population and Sample Distributions of a Variable

1. Answer the following:

a. Which plot shows the largest population?
