The Console Mike Diver, 2024-04-18 THE CON50LE is a comprehensive yet conversational account of 50 years of home video gaming history leaving no rarely sighted system unturned and providing a chronological account of the evolution of the biggest entertainment medium in the world From the earliest consoles of the 1970s to the cutting edge machines of the here and now a line is drawn from one man's eureka moment to the multi billion dollar global industry of today All the well known names and massive selling consoles are here the Nintendo Entertainment System the SEGA Mega Drive the Atari 2600 the Xbox 360 the PlayStation 2 But there's plenty of room for hardware that many a gamer won't have heard of before from Japan only releases and home computer conversions to ill advised experiments with VHS and all manner of micro console magic Learn about the creators and their inspirations the games that made the biggest consoles eternal reputations and the failures and flops along the way Even the consoles that came and went without notable commercial success left a mark an imprint on this compelling history and THE CON50LE unravels it explains it one fascinating machine at a time

Playstation 3 , Video Game Audio Christopher Hopkins, 2022-08-17 From the one bit beeps of Pong to the 3D audio of PlayStation 5 this book examines historical trends in video game sound and music A range of game systems sold in North America Europe and Japan are evaluated by their audio capabilities and industry competition Technical fine points are explored including synthesized v sampled sound pre recorded v dynamic audio backward compatibility discrete and multifunctional soundchips storage media audio programming documentation and analog v digital outputs A timeline chronicles significant developments in video game sound for PC NES Dreamcast Xbox Wii Game Boy PSP iOS and Android devices and many others Encyclopedia of KISS Brett Weiss, 2017-08-11 The self proclaimed Hottest Band in the World KISS is one of the most popular groups in the history of rock having sold more than 100 million albums during their more than 40 year reign With more gold albums than any other American band they were inducted into the Rock and Roll Hall of Fame in 2014 KISS influenced a generation of musicians from Garth Brooks and Motley Crue to Nirvana and the Red Hot Chili Peppers The original leather clad makeup wearing line up Ace Spaceman Frehley Gene Demon Simmons Paul Starchild Stanley and Peter Catman Criss and their classic hits Beth and Rock and Roll All Nite are forever etched in pop culture consciousness This encyclopedia of all things KISS provides detailed information on their songs albums tours television and movie appearances merchandise solo work and much more including replacement members Eric Carr Vinnie Vincent Bruce Kulick Mark St John Eric Singer and Tommy Thayer **The Games Machines , Platform Power and Policy in Transforming Television Markets** Tom Evens, Karen Donders, 2018-04-04 This book seeks to investigate platform power in the multi platform era and unravels the evolution of power structures in the TV industry as a result of platformisation Multiple TV platforms and modes of distribution are competing not necessarily in a zero sum game to control the market In the volume the contributors work to extend established platform theory to the TV industry which has become increasingly

organised as a platform economy The book helps to understand how platform power arises in the industry how it destabilises international relations and how it is used in the global media value chain Platform Power and Policy in Transforming Television Markets contributes to the growing field of media industry studies and draws on scholarly work in communication political economy and public policy whilst providing a deeper insight into the transformation of the TV industry from an economic political and consumer level Avoiding a merely legal analysis from a technology driven perspective the book provides a critical analysis of the dominant modes of power within the evolving structures of the global TV value chain

Big Tech Acquisitions and Merger Control Nils Stock, 2025-09-30 Big Tech Acquisitions and Merger Control Challenges Posed by Digital Platforms and Ecosystems Nils Stock Although legal analysis of merger related firm dominance in Big Tech has emphasised the so called GAFAM Google Amazon Facebook Apple and Microsoft this important book stresses the necessity for a much broader view Numerous large tech platforms continue to seek dominance in and across various market segments by acquiring small start up companies with high competitive potential but yet little or no turnover thereby running the risk of escaping antitrust scrutiny This phenomenon is now often referred to as killer acquisitions and it raises problems with regard to both the jurisdictional and the substantive aspects of merger control which this book addresses comprehensively Focusing on legislative initiatives and enforcement practice especially in the European Union and the United Kingdom and through an in depth analysis of the most prominent decisions concerning Big Tech acquisitions the author spells out the nature of such relevant legal issues and strategies as the following the economic principles of platform competition and the particularities of digital ecosystems including their implications for merger control an extensive comparison of different jurisdictional rules and notification requirements beyond standard turnover thresholds how Big Tech acquisitions can be subjected to scrutiny in the European Union via referrals under Article 22 of the European Union Merger Regulation EUMR potentially in combination with national call in tools and or Article 14 of the Digital Markets Act DMA and how the latter compares to the reporting requirement under the Digital Markets Competition and Consumers DMCC Act in the United Kingdom market definition and market power assessments including but not limited to social media and advertising markets how both traditional and novel theories of harm can be applied in the context of digital platforms and ecosystems application of theories of harm relating to killer acquisitions and reverse killer acquisitions the development of an ecosystem theory of harm and artificial intelligence as the new frontier Policy proposals and the academic legal literature are taken into account with due regard to economic considerations as well With competition authorities and legislators worldwide grappling to find an appropriate response to the expansion and consolidation of dominance in various digital markets it appears necessary to contemplate alternatives to the current turnover based notification thresholds and to rethink the substantive assessment of Big Tech acquisitions This book with its thorough guidance on the characteristics challenges and treatment of digital platforms and ecosystems in the context of merger control and its clear exposition of applicable

theories of harm will greatly assist practitioners competition authorities and policymakers to successfully navigate through the challenging tasks of establishing jurisdiction defining relevant markets and assessing market power and competitive harm
