Clément Marot Ehsan Ahmed,2005 Ahmed presents the political religious and poetic explorations of Marot's relation with King Francis I of France

Sacred Repertories in Paris under Louis XIII Peter Bennett,2023-04-14 The study of sacred music under Louis XIII r 1610 43 has advanced little in the past hundred years Despite some important recent contributions by the late Denise Launay and others much of our current perception of the Latin sacred music of the period is still informed by the pioneering research undertaken by Henri Quittard in the early years of the twentieth century Even with Quittard's work however the almost complete absence of surviving sources has severely limited our understanding of this era But by re-examining one of the seventeenth century treasures of the Bibliothèque nationale MS Vma r s 571 *Sacred Repertories in Paris under Louis XIII* reveals that far from being a transitional period in which little music of any interest was produced the reign of Louis XIII witnessed a flowering of musical activity and the development of musical techniques normally associated with the reign of Louis XIV Based on an exhaustive and innovative manuscript study *Sacred Repertories* shows that Vma r s 571 a largely anonymous source of previously unknown provenance was copied in Paris by the composer Andr Pechon and that it preserves three previously unidentified repertories with connections to the court of Louis XIII The repertoire of the musique de la chambre until now considered a secular institution shows it to have been an equal partner of the chapelle in the provision of sacred music at court The repertoire of the royal parish church of Saint Germain l'Auxerrois the only working liturgical repertory surviving from the century illustrates musical practices at this important collegiate church And the repertoire of the Royal Benedictine Abbey of Montmartre testifies to the richness of musical tradition in Parisian convents during a period when no other comparable music from France survives *Sacred Repertories* thus transforms our understanding of the musical landscape of seventeenth century France and provides a springboard for

A Masterpiece Reconstructed J. Paul Getty Museum,Victoria and Albert Museum,2005 Janet Backhouse who originally assembled the evidence that revealed this long forgotten masterpiece introduces the Hours of Louis XII and its cycle of miniatures Thomas Kren discusses the book's provocative miniature of Bathsheba bathing within the context of the king's own taste and predilections and within the then emerging genre of the female nude in French painting Nancy Turner considers the importance of Bourdichon's painting and illuminating technique in the Hours of Louis XII in relation to his other work Mark Evans examines the individual histories of each of the surviving portions of the book Lastly an appendix reconstructs the book's devotional contents and program of illumination

Lost Artefacts from Medieval England and France Katherine Baker,2022 Contemporary descriptions of objects no longer extant examined to reconstruct these lost treasures Surviving accounts of the material culture of medieval Europe including buildings boats reliquaries wall paintings textiles ivory mirror cases book bindings and much more present a tantalising glimpse of medieval life hinting at the material richness of that era

However students and scholars of the period will be all too familiar with the frustration of trying to piece together a picture of the past from a handful of fragments. The material turn has put art, architecture and other artefacts at the forefront of historical and cultural studies and the resulting spotlight on the material culture of the past has been illuminating for researchers in many fields. Nevertheless the loss of so much of the physical remnants of the Middle Ages continues to thwart our understanding of the period and much of the knowledge we often take for granted is based on a series of arbitrary survivals. The twelve essays in this book draw on a wide array of sources and disciplines to explore how textual records from the chronicles of John of Worcester and Matthew Paris and inventories of monastic treasuries and noble women to Beowulf and early English riddles when combined with archaeological and art historical evidence can expand our awareness of artistic and cultural environments. Touching on a broad range of issues around how we imaginatively reconstruct the medieval past and a variety of objects both precious and ephemeral, this volume will be of fundamental interest to medieval scholars whatever their disciplinary field.

This seminal study addresses one of the most beautifully decorated 15th century copies of the New Statutes of England, uncovering how the manuscript's unique interweaving of legal, religious and literary discourses frames the reader's perception of the work. Taking internal and external evidence into account, Rosemarie McGerr suggests that the manuscript was made for Prince Edward of Lancaster, transforming a legal reference work into a book of instruction in kingship as well as a means of celebrating the Lancastrians' rightful claim to the English throne during the Wars of the Roses. *A Lancastrian Mirror for Princes* also explores the role played by the manuscript as a commentary on royal justice and grace for its later owners and offers modern readers a fascinating example of the long lasting influence of medieval manuscripts on subsequent readers.

Afterlife of Mary, Queen of Scots Steven J. Reid, 2024-04-30. Mary Queen of Scots 1542-1587 was active as monarch of Scotland for just six years between 1561 and 1567, but her impact as a ruler in Scotland is much less important than her subsequent role in popular culture and imagination. Her story has enjoyed perpetual retelling and reached a global audience over the past four and a half centuries. This collection surveys the exceptionally varied range of objects, literature, art and media that have been produced to commemorate Mary between her own time and the present day. Why is her story so enduring, pervasive and of such interest to so many different audiences? How have the narratives associated with these objects evolved in response to shifting cultural attitudes? The collection offers a much needed novel perspective on the Queen of Scots using an approach at the intersection of early modern gender and cultural history, museum and heritage studies and memory studies.
