Psicanalisi E Politica:

Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 *Psychoanalytic Reflections on Politics* Fatherlands in mothers hands is a playful exploration of how people's desires, fantasies and emotions shape political events and social phenomena. It highlights the mythical sources of today's political projects, the power of political imagination and the function of symbolism in political thought. Eszter Salgó argues that the driving force for the formation of political communities is fantasy, illusions in a Winnicottian sense, phantasies in a Lacanian sense, phantoms as described by Nicolas Abraham and Maria Torok, and dreams as interpreted by Sándor Ferenczi. She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution, love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent. The book is divided into two parts. The first part of the book explores the theories of Donald Winnicott and Jacques Lacan, the matrimony on the stage of politics between the good enough mother and the Symbolic Father, which inaugurates the story of democracy's fantastic family. The second part presents the fantastic families of selected countries such as Hungary, Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions. *Psychoanalytic Reflections on Politics* Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy. It will be of interest to psychoanalysts and academics from across the disciplines of politics, psychology, anthropology, sociology, philosophy, literature and art.

Computational Psychoanalysis and Formal Bi-Logic Frameworks Iurato, Giuseppe, 2018-01-05 Computational psychoanalysis is a new field stemming from Freudian psychoanalysis. The new area aims to understand the primary formal structures and running mechanisms of the unconscious while implementing them into computer sciences. *Computational Psychoanalysis and Formal Bi-Logic Frameworks* provides emerging information on this new field which uses psychoanalysis and the unconscious mind to make advancements in computational research. While highlighting the challenges of applying analytical logic trends to primary formal structures, readers will learn the valuable outputs to society when these trends are successfully implemented. This book is an important resource for computer scientists, researchers, academics and other professionals seeking current research on applying psychoanalysis and Freudian concepts to computational structures.

Psychoanalysis and Politics Joy Damousi, Mariano Ben Plotkin, 2012-02-02 A fresh addition to an enormous body of scholarship, this will be required reading for academics interested in the relationship between politics and non-political systems of thoughts and beliefs, the transnational circulation of ideas, social movements and the intellectual and social history of psychoanalysis. Italian Psychology and Jewish Emigration under Fascism Patrizia Guarnieri, 2016-05-03 Fascism and the racial laws of 1938 dramatically changed the

scientific research and the academic community Guarnieri focuses on psychology from its promising origins to the end of the WWII Psychology was marginalized in Italy both by the neo idealistic reaction against science and fascism unlike Nazism with long lasting consequences Academics and young scholars were persecuted because they were antifascist or Jews and the story of Italian displaced scholars is still an embarrassing one The book follows scholars who emigrated to the United States such as psychologist Renata Calabresi and to Palestine such as Enzo Bonaventura Guarnieri traces their journey and the help they received from antifascist and Zionist networks and by international organizations Some succeeded some did not and very few went back
