Trauma-Informed Psychiatric Nursing Care Priya Leone May, Discover a groundbreaking clinical resource that transforms care for patients struggling with both trauma and substance use disorders. This comprehensive guide establishes trauma-informed care as the essential framework for psychiatric nurses working with dual diagnosis patients. Drawing on cutting-edge neuroscience and clinical expertise, this book reveals the profound connections between trauma and addiction, illuminating how substance use often represents a survival response to overwhelming experiences. Through detailed case examples and practical applications, readers gain mastery of integrated assessment techniques, intervention strategies, and recovery approaches specifically designed for this complex patient population. Each chapter provides actionable nursing interventions that address the unique challenges presented by co-occurring disorders, from trauma-sensitive detoxification protocols to specialized relapse prevention strategies that target trauma triggers. The book's systematic approach guides practitioners through the entire treatment continuum while emphasizing patient safety, empowerment, and resilience building. Particularly valuable are the extensive appendices featuring validated screening tools, safety planning templates, patient education resources, and community resource development guides, transforming theoretical concepts into immediately applicable clinical tools. This essential text bridges the gap between trauma treatment and addiction recovery, providing psychiatric nurses with the knowledge, skills, and confidence to break the cycle of trauma and substance use through compassionate, informed care. A must-have resource for any mental health professional committed to improving outcomes for this vulnerable patient.
