Psychological Science 4th Edition :

Psychological Science Caroline M. Stanley, David K. Payne, 2014-08 *Psychology, Fourth Edition* Peter O. Gray, 2002
The new edition of Gray's acclaimed text featuring dramatic new coverage of sensation and perception and new media tools that actively involve students in psychological research *Cognitive Science* José Luis Bermúdez, 2022-11-10 The fourth edition of this popular text has been significantly rewritten to make it more accessible to students and easier for instructors to use. It remains distinctive in presenting a unified narrative of cognitive science as a field of inquiry in its own right. Thematically organized, *Cognitive Science* underscores the problems and solutions of cognitive science rather than more narrowly examining individually the subjects that contribute to it: psychology, neuroscience, linguistics, and so on. The generous use of examples, illustrations, and applications demonstrates how theory and experiment can be applied to unlock the mysteries of the human mind. Drawing upon cutting-edge research, the text has been updated and enhanced with a new chapter on emotions and the emerging field of affective science. An extensive online set of resources is available to aid both instructors and students. *Aging and Older Adulthood* Joan T. Erber, 2013-01-29 The third edition of this essential text has been updated and expanded with new material that reflects the most recent developments in the field and explores our current understanding of a broad range of topics related to aging and older adulthood. Fresh edition includes updated content such as revised case histories and reworked material on key concepts and research applications. Retains the winning format of the second edition with chapter contents framed by individual histories. Dual models add cohesiveness to the presentation of theory. Thematic structure facilitates reader comprehension. Instructor resources provided online upon publication at www.wiley.com/go/erber. **The SAGE Handbook of Industrial, Work & Organizational Psychology, 3v** Deniz S.
