

AP[®] Psychology Practice Exam

From the 2015 Administration

NOTE: This version was administered in 2014 to a small and randomly selected group of students in U.S. schools for equating purposes. Given the 2014 administration, several multiple-choice questions on that exam were not aligned with DSM-5, as this alignment took effect for the 2015 exams. In order not to disadvantage students who took the international version of the exam in 2015, those six questions were removed from scoring and from this exam.

This Practice Exam is provided by the College Board for AP Exam preparation. Teachers are permitted to download the materials and make copies to use with their students in a classroom setting only. To maintain the security of this exam, teachers should collect all materials after their administration and keep them in a secure location. Exams may not be posted on school or personal websites, nor electronically redistributed for any reason. Further distribution of these materials outside of the secure College Board site disadvantages teachers who rely on uncirculated questions for classroom testing. Any additional distribution is in violation of the College Board's copyright policies and may result in the termination of Practice Exam access for your school as well as the removal of access to other online services such as the AP Teacher Community and Online Score Reports.
