Model United Nations Simulations and English as a Lingua Franca Donna Tatsuki, Lori Zenuk-Nishide, 2021-09-22

One of the most important 21st century skills is the ability to negotiate constructive resolutions in the face of conflicts of interest. Negotiation is a form of communication that requires more than just language ability. It requires being able to listen to and communicate with others within a milieu of diverse language abilities, academic, professional, and cultural backgrounds in an increasingly global society. Added to this is the reality that the majority of English spoken globally is English as a Lingua Franca. ELF Model United Nations MUN simulations are uniquely positioned to help students develop their language ability and their global competencies as well as being ideal opportunities for participants to experience ELF in an intensely communicative context. A common goal in MUN simulations is to prepare students to solve complex problems that are associated with living in a technological, competitive, and globally connected world. This volume provides researchers, negotiation practitioners, and language teachers with insights and best practices in MUN event and delegate preparation. Application of these best practices will significantly enrich the pedagogic environments designed for MUN delegates, especially in ELF contexts.

Health Policy: Applications for Nurses and Other Healthcare Professionals Demetrius J. Porche, 2021-12. Health Policy Application for Nurses and Other Health Care Professionals Third Edition provides an overview of the policy making process within a variety of settings including academia, clinical practice, communities, and various health care systems.

Health Policy Demetrius Porche, 2012. Health care providers frequently engage in setting policy agenda at the individual, systems, institutional, or public level. Health Policy Application for Nurses and Other Health Care Professionals provides an overview of the policymaking process within a variety of settings including academia, clinical practice, communities, and various health care systems. By including both policy evaluation and research, the author provides a comprehensive and multi-perspective approach to developing and formulating effective health care policy. Unlike other texts, Health Policy Application for Nurses and Other Health Care Professionals utilizes a condensed format without a large amount of explanatory text. Topics include governmental overviews and roles, policy formulation and analysis, public health, political theory, and practice.
