

Real Proport has several components:

The Tip (1) inserts into the Monitor (2).

If the Tip comes with a small cover cap, remove the cap before inserting it into the Monitor.

The Tip includes a small fluid reservoir.

The Monitor screws onto the Front Cap (3).

Make sure you load either the Monitor or the Tip reservoir with your fluid of choice before attempting to use the Proport. Two of these drops are usually plenty.

The Front Cap is permanently attached into the Tube (6). Do not attempt to remove it.

The Button (4) activates the Monitor, which creates the vapor.

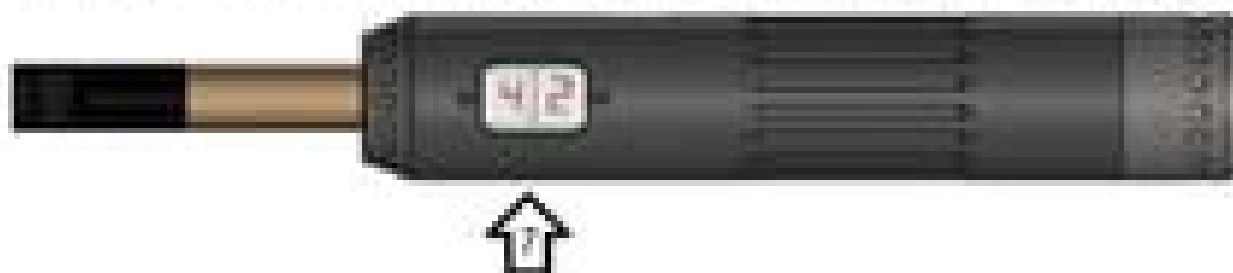

The Button is also used to change the user settings on the Proport.

The End Cap (6) is where the battery goes.

Be careful to avoid cross-threading the End Cap into the Tube.

Refer to the Battery Instructions for more information about charging and installing a battery.

The Display Window (5) shows the voltage settings, and other modes as well as error codes in the event of a malfunction.
