

## LINK SEARCH SCREEN

The Link Search setup screen is used to set the length of time that the Pinger Plus will monitor a wire pair for Link signals. Normal (about 2.5 seconds) is the default setting or use the Up/Down cursor key to select the Long setting (about 5 seconds). Some switches, especially if configured for VoIP, require a longer time to complete Link negotiations and the Long setting will provide more consistent Link detection.

## UPDATE PINGER SCREEN

The Pinger Plus firmware can be updated over the network as new revisions are released. Notice of a new revision will be provided on the Psiber web site ([www.psiber.com](http://www.psiber.com)). Download the new firmware file, connect the Pinger Plus to the network, go to the Update Pinger Setup screen, press the Select function key and the unit will Link to the network and enable the firmware update mode. Next run the downloaded file on the computer. The program will ask for the current IP address of the Pinger Plus (see Pinger IP Address Setup screen) and your password. When the update is complete the program will notify the user and the Pinger Plus immediately goes to the Link screen and searches for the Link. **WARNING:** Any disruption while programming is in process will result in the unit being unuseable and will have to be returned to the factory for repair. Install a fresh set of batteries or connect the AC adapter to the unit before starting an update.

## POWER

**Duration** - The Pinger Plus will typically provide about 5 to 6 hours of operation from a set of four AA alkaline batteries. An AC adapter is also provided which will power the unit but does not recharge the batteries.

**Auto Power Down** - The Pinger will automatically turn off after the time selected in the Power Down Setup screen or will run continuously until manually turned off when 'ON' is selected for Power Down.

**Low Battery** - When the batteries are below the level required for the Pinger Plus to operate properly, a battery graphic appears in the upper right hand corner of the display.
