Psicomotricidad. Fundamentación teórica y orientaciones prácticas Ángel Hernández Fernández, 2008-12-12 Este manual pretende aproximarnos a un planteamiento metodológico extraordinariamente potente para la educación infantil intentando satisfacer criterios de rigor científico y utilidad práctica para el docente El movimiento y la acción sobre el entorno físico son un puente privilegiado hacia el aprendizaje y el desarrollo en el niño La construcción psicomotriz de la capacidad cognitiva en las primeras edades viene asociada a la necesidad del niño de experimentar e interactuar con su entorno social como base del desarrollo de su identidad personal y su personalidad Podemos utilizar la psicomotricidad como una forma global de abordar el currículo en educación infantil desde una perspectiva integradora que fomenta una actitud activa y creativa en los niños o cuando menos puede representar una valiosa técnica para complementar el planteamiento curricular del docente de esta etapa En los dos primeros capítulos de este libro se recorren los conceptos psico evolutivos que deben fundamentar la práctica psicomotriz intentando conciliar los planteamientos teóricos con numerosos ejemplos de la vida cotidiana y del contexto de la educación infantil El tercer capítulo analiza a fondo la práctica educativa de la psicomotricidad y su valor como estrategia metodológica para favorecer el desarrollo infantil El cuarto capítulo profundiza en las distintas necesidades educativas especiales y su tratamiento en el aula de psicomotricidad desde una perspectiva inclusiva Por último se adjuntan numerosos anexos prácticos que ayudan al educador a aprovechar al máximo la psicomotricidad escalas de desarrollo criterios de evaluación guías de estimulación sensorial orientaciones respecto a la preparación de la sala y las sesiones etc

Moving and Interacting in Infancy and Early Childhood Silvia Español, Mauricio Martínez, Fernando G. Rodríguez, 2022-09-08 This book introduces studies on infant and early childhood development that are in a permanent dialogue with the psychology of music the philosophy of mind and human movement studies They are based on an innovative framework that combines embodied cognition the multimodal approach to child development and the second person perspective in social cognition This frame of reference allows authors to revisit relevant topics in developmental psychology such as adult infant interactions early intersubjective experiences the development of perceptual verbal and gestural communication skills as well as the complexity of play in infancy and early childhood In the field of infancy and early childhood studies the three viewpoints brought together in this volume had a clear innovative impact Embodied psychology showed the body to be the primary agent in the interactions that shape the infant's psyche The second person perspective exhibited the direct transparent I-Thou contact involved in the first patterns of reciprocity between adult and infant and the multimodal theory of perceptual development revealed an infant immersed in a multisensory environment conveying information to all perceptual systems as a unified experience The studies presented in this volume combine these three viewpoints and link them through the use of analytical tools and concepts from the temporal arts music and dance This way of conducting empirical research on some central topics in early infancy led to an aesthetic

conception of development that emphasizes bodily experience temporal affects and their intertwining with symbolic capacities Moving and Interacting in Infancy and Early Childhood An Embodied Intersubjective and Multimodal Approach to the Interpersonal World will provide innovative tools for developmental and cognitive psychologists studying the development of early socio cognitive skills in infants and young children and will also serve as a rich source of information for researchers and practitioners in other fields such as education and nursing who can benefit from cutting edge knowledge in developmental sciences

Handbook of Latin American Health Psychology Alfonso Urzúa, Yarimar Rosa-Rodríguez, 2025-07-26 This handbook presents a comprehensive overview of a tradition of psychological research and practice little known in the English speaking world the Latin American school of health psychology Even though health psychology as a field of research and practice was born in Latin America with the creation of the National Group of Health Psychology within the Cuban Ministry of Public Health in 1969 this genesis is seldom acknowledged in the international literature And even less is known on an international level about the original contributions that Latin American health psychologists have made and still make to the development

of the discipline This volume aims to fill this gap by presenting to the international community a comprehensive account of the particular trajectory of health psychology in Latin America and the original contributions made by a field of research and practice that has always tried to integrate a socio culturally sensitive approach to develop studies and interventions in health promotion and disease prevention This is done by bringing together chapters written by leading experts from the region that explain the specific social political and cultural contexts in which health psychology developed in Latin America present the original theoretical and methodological approaches developed by Latin American health psychologists and provide an overview of current research done in the region about the contribution of psychology to the management of various health conditions The Handbook of Latin American Health Psychology will be of interest to researchers practitioners and students interested in the internationalization and cross cultural generalizability of health psychology as a tool for building a truly global and culturally sensitive discipline Some chapters of this handbook were originally written in Spanish and translated into English with the help of artificial intelligence A subsequent human revision was done primarily in terms of content
