Ibën Rushdi dhe filozofia e tij e arsimit Numan Jusuf Aruç,2006 Metodologjia e Hulumtimeve Shkencore në Fushat Shogërore Tahir Zajazi, *Kosovo* Denisa Kostovicova,2005 While exploring events that led to the bloodshed in Kosovo in 1999 Denisa Kostovicova shows that the legacy of ethnic segregation is one of the major obstacles the international community faces in its efforts to establish an integrated multi ethnic society in this territory Of interest to academics and students of nationalism and politics as well as practitioners and journalists this book is an important advance in research on one of the most tragic European conflicts of recent times Jacket Albanian: The Power of Education Jeremy Henzell-Thomas,2020-01-01 Knowledge is Power a statement commonly attributed to an eminent English philosopher and scientist in 1597 still highlights today the importance of knowledge in the modern world Education forms the basis of our knowledge and its development from our earliest experiences at school through to Higher Education Individuals use their knowledge in their professional and personal lives and society as a collective of individuals shapes the world in which we live Therefore the power of education is one of the keys to developing a successful society and benefits humanity at large But things have gone very wrong Society values and morals are all in decline How has education lost its power to build an effective and fair society How can this decline be reversed In *The Power of Education* the author goes back to first principles and asks what is education and what do individuals and society need from education Reconnecting education with the heart and soul of humanity and finding that great purpose of mankind is paramount This is distinct from a knowledge factory that merely develops individuals for material advancement and personal progression Values morals compassion empathy gratitude mutual respect fairness and social responsibility are all essential traits for individuals that collectively form a successful society and these traits need to be instilled during the entire educational experience By rethinking and developing an effective education methodology one can work towards building a better world based upon equality and fairness for all
