window through which to view the lives of ordinary French people She demonstrates how that cliché of modern life the family dog reveals the tensions that modernity created for the Parisian bourgeoisie Kete's study draws on a range of literary and archival sources from dog care books to veterinarians's records to Dumas's musings on his cat The fad for aquariums attitudes toward vivisection the dread of rabies the development of dog breeding all are shown to reflect the ways middle class people thought about their lives Petkeeping says Kete was a way to imagine a better more manageable version of the world it relieved the pressures of contemporary life and improvised solutions to the intractable mesh that was post Enlightenment France The faithful affectionate family dog became a counterpoint to the isolation of individualism and lack of community in urban life By century's end however animals no longer represented the human condition with such potency and even the irascible autonomous cat had been rehabilitated into a creature of fidelity and affection Full of fascinating details this innovative book will contribute to the way we understand culture and the creation of class This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994
