

The figure below shows the three types of survivorship curves.

| Label | Type I, II, or III? | Description of strategy                                                                                                                                                | Example organisms that use this strategy                      |
|-------|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| A     | Type I              | Organisms have very low offspring and take very good care of them to ensure their survival. High survival at young, because it's relatively likely to die as they age. | Large mammals (ex. humans, elephants, horses, whales, whales) |
| B     | Type II             | Organisms equally likely to die at any point throughout their life.                                                                                                    | Small animals (ex. Robins!)<br>Predating birds (larks)        |
| C     | Type III            | Organisms have many offspring and do not invest much care to ensure they survive.                                                                                      | Fish<br>Small insects<br>Small plants                         |

What is meant by **population distribution**?

To summarize, the three main population distribution patterns could be shown in the table below:

| Type of distribution | Picture of distribution                                                                                                                                                 | Why use this pattern?                                                                                             |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Clumped              |   | <b>VERY COMMON</b><br>Safety in numbers, social interactions, mating and caring for young, resources are clumped. |
| Dispersed            |   | Scarcity of resources, variability.                                                                               |
| Random               |   | <b>VERY COMMON</b><br>It's random (ex. Robins) because they breed with their own genes, so random (ex. Robins).   |
