

Overview

Included in this document are general and project specific plan outlines to aid CNYCC and its partner organizations to develop plans for the long term success of the DSRIP program. These templates are not meant to be a prescribed set of tasks each partner needs to follow in order to reach DSRIP goals. Instead, they are meant to be a set of steps CNYCC will use to track and maintain our long term goals at the partner level. The methods partners use to reach these goals will often be unique to the organization, developed based on project activities such as DSRIP learning collaborative ,PICs, RPACs and Workgroups, or mandated by the state. In order to best report on progress, aid in best practice, and provide as much support as possible, we put together these general outlines and timelines to draw correlation between partners and drive each partner to a single cohesive end in preparation for value based payment environment.

Lafferty,2006-01-01 This book is an original study of the challenge of implementing sustainable development in Western democracies It highlights the obstacles which sustainable development presents for strategic governance and critically examines how these problems can best be overcome in a variety of different political contexts Evaluation in Decision Making Naftaly S. Glasman,David Nevo,1988-06-30 This book is about the practice of decision making by school principals and about ways to improve this practice by capitalizing on evaluation dimensions Much has been written on decision making but surprisingly little on decision making in the school principalship Much has been also written on evaluation as well as on evaluation and decision making but not much has been written on evaluation in decision making especially decision making in the principalship This book presents two messages One is that decision making in the principalship can be studied and improved and not only talked about in abstract terms The other message is that evaluation can contribute to the understanding of decision making in the principalship and to the improvement of its practice In this book we call for the conception of an evaluation minded principal a principal who has a wide perspective on the nature of

evaluation and its potential benefits a principal who is also inclined to use evaluation perceptions and techniques as part of his/her decision making process This book was conceived in 1985 with the idea to combine thoughts about educational administration with thoughts about educational evaluation Studies of decision making in the principalship had already been on their way We decided to await the findings and in the meantime we wrote a first conceptual version of evaluation in decision making As the studies were completed we wrote a first empirical version of same

Emergency Medical Services
Institute of Medicine, Board on Health Care Services, Committee on the Future of Emergency Care in the United States Health System, 2007-06-03

Emergency Medical Services EMS is a critical component of our nation's emergency and trauma care system providing response and medical transport to millions of sick and injured Americans each year At its best EMS is a crucial link to survival in the chain of care but within the last several years complex problems facing the emergency care system have emerged Press coverage has highlighted instances of slow EMS response times ambulance diversions trauma center closures and ground and air medical crashes This heightened public awareness of problems that have been building over time has underscored the need for a review of the U.S. emergency care system Emergency Medical Services provides the first comprehensive study on this topic This new book examines the operational structure of EMS by presenting an in-depth analysis of the current organization delivery and financing of these types of services and systems By addressing its strengths limitations and future challenges this book draws upon a range of concerns The evolving role of EMS as an integral component of the overall health care system EMS system planning preparedness and coordination at the federal state and local levels EMS funding and infrastructure investments EMS workforce trends and professional education EMS research priorities and funding Emergency Medical Services is one of three books in the Future of Emergency Care series This book will be of particular interest to emergency care providers professional organizations and policy makers looking to address the deficiencies in emergency care systems
