People And A Nation Norton 10th Edition:

Comparative Perspectives on School Textbooks Dobrochna Hildebrandt-Wypych, Alexander W. Wiseman, 2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks

American History, Race and the Struggle for Equality Masaki Kawashima, 2016-12-16 Powerfully synthesizing major currents in the field this book addresses the issue of inequality across American politics and society using race as a lens for the exploration of major themes in American history It considers the concept of race as a social construction against the background of the historical struggles for fairness in a society based on the framework of democracy whose principle is that majority s consent be necessary for the fulfillment of justice Foregrounding problems of race capital and political economy it particularly examines the connections between race and class the relationship of slavery and national politics and the distinctive intellectual framework that Americans have developed to discuss race Offering a detailed account of civil rights legislation an overview of immigration law and policy and comprehensive overviews of debates about affirmative action immigration and the causes and solutions to racialized urban poverty this book emphasizes what is distinctive about the United States and offers a unique comparative framework for thinking about America s racial past

The Empty Cradle Margaret S. Marsh, Wanda Ronner, 1996 So called ovarian transplantations performed in the early twentieth century foreshadowed the modern practice of egg donation and the first experiments in human in vitro fertilization date back to the 1930s Marsh and Ronner also tell the little known story of free and low cost clinics in the urban North where low income women were treated for infertility beginning in the nineteenth century

Communities of Ludlow Fawn-Amber Montoya, Karin Larkin, 2022-07-15 For more than one hundred years people have come to the Ludlow Massacre Memorial site to remember the dead to place themselves within a larger narrative of labor history and to learn about what occurred there Communities of Ludlow reveals the perseverance memory and work that has been done to enrich and share the narratives of the people of Ludlow and the experiences of those who commemorate it The history of the Ludlow Massacre encompasses

the stories of immigrant groups women the working class and people of color as much as the story of that tragedy and the continued relevance of these issues creates a need for remembrance and discussion of how to make the events of the Ludlow Massacre available to contemporary society The book outlines recent efforts to remember and commemorate this important historical event documenting the unique collaborations in public scholarship and outreach among the diverse group of people involved in marking the 100 year anniversary of the Ludlow Massacre The chapters relate the tales of the stewards of the Ludlow Massacre the various communities that rallied together to keep this history alive and show its relevance including lineal descendants members of the United Mine Workers of America historians archaeologists scholars artists interpreters authors playwrights and politicians The book also offers tips strategies and cautionary tales for practicing engaged public scholarship The history of the Ludlow Massacre has been told as a tragedy of striking miners in the West that occurred during a turbulent time in US labor relations but it is so much more than that Communities of Ludlow explores the intersections of public scholarship advocacy and personal experience weaving these perspectives together with models for practicing public scholarship to illustrate the power of creating spaces for sharing ideas and information in an environment that encourages creativity open dialogue public outreach political action and alternative narratives Contributors Robert Butero Robin Henry Michael Jacobson Elizabeth Jameson Linda Linville Matthew Maher Yolanda Romero

Temporary Economic Crises Shahzavar Karimzadi,2022-12-30 In traditional theory of economic crisis and in all its manifestations there is no fundamental difference between economic disorder and economic crisis the two types of economic turmoil are both considered temporary states This book is a methodical study of deep seated causes of economic crises The aim of the book is to explain the key difference between economic disorder and economic crisis Its key argument is that economic disorder is a permanent condition whereas economic crises are a series of transitory periods Economic crises unlike economic disorders are acute and frenzied volatilities that are unpredictable and short lived Humans cannot survive in a condition of perpetual economic crises but can only accommodate life under unremitting economic disorders The book also explores the root cause of economic crisis Unlike the received wisdom in economics this book looks at the root cause of such hysterical economic turbulences as a result of an innate propensity of human fallibility The final section of this book looks at the ramifications of this alternative perspective on macroeconomic policy formation and implementation This book is a major contribution to the literature on economic disorder and crises and will be of great interest to readers of economic theory philosophy of economics and the history of economic thought

Zombie History Peter Charles Hoffer,2020-01-02 Fake history is not a harmless mistake of fact or interpretation It is a mistake that conceals prejudice a mistake that discriminates against certain kinds of people a mistake held despite a preponderance of evidence a mistake that harms us Fake history is like the Zombies we see in mass media for the fake fact like the fictional Zombie lives by turning real events and people into monstrous perversions of fact and interpretation Its pervasiveness reveals that prejudice remains its chief appeal to those who believe it

Its effect is insidious because we cannot or will not destroy those mischievous lies. Zombie history is almost impossible to kill. Some zombie history was and is political, a genre of what Hannah Arendt called organizational lying about the past. Its makers designed the zombie to create a basis in the false past for particular discriminatory policies. Other history zombies are cultural. They encapsulate and empower prejudice and stereotyping. Still other popular history zombies do not look disfigured but like zombies walk among us without our realizing how devastating their impact can be. Zombie history argues that whatever their purpose, whatever the venue in which they appear, history zombies undermine the very foundations of disinterested study of the past.

Reader's Guide to American History Peter J. Parish, 2013-06-17. There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social, and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors, all scholars of American history.

When Private Talk Goes Public Kathleen Feeley, Jennifer Frost, 2014-08-06. Gossip is one of the most common and most condemned forms of discourse in which we engage, even as it is often absorbing and socially significant. It is also widely denigrated. This volume examines fascinating moments in the history of gossip in America, from witchcraft trials to People magazine, helping us to see the subject with new eyes.

Confronting the War Machine Michael S. Foley, 2003. Focusing on the draft resistance movement in Boston in 1967-68, this study argues that these acts of mass civil disobedience turned the tide in the antiwar movement by drawing the Johnson administration into a confrontation with activists who were largely young, middle-class, liberal, and from suburban backgrounds, the core of Johnson's constituency.
