Every Song Ever Ben Ratliff,2015-10-16 What is music in the age of the cloud Today we can listen to nearly anything at any time It is possible to flit instantly across genres and generations from 1980s Detroit techno to 1890s Viennese neo romanticism This new age of listening brings with it astonishing new possibilities as well as dangers In Every Song Ever the veteran New York Times music critic Ben Ratliff reimagines the very idea of music appreciation for our times In the age of the cloud the genre of the recording and the intention of the composer matter less and less Instead we can savor our own listening experience more directly taking stock of qualities like repetition speed density or loudness The result is a new mode of listening that can lead to unexpected connections When we listen for slowness we may detect surprising affinities between the drone metal of Sunn O the mixtape manipulations of DJ Screw and the final works of Shostakovich And if we listen for more elusive qualities like closeness we might notice how the tight harmonies of bluegrass vocals illuminate the virtuosic synchrony of John Coltrane s quartet Encompassing the sounds of five continents and several centuries Ratliff s book is a definitive field guide to our musical habitat and a foundation for the new aesthetics our age demands

Representing Sound Jay Hodgson, Steve MacLeod, 2014-05-28 The first title in the Laurier Digital series Representing Sound elucidates the base technical ontology the machine essence of every recorded musical communication In so doing it suggests the broad contours of an unprecedented theoretical basis for considering recording practice that posits no fundamental relationship between it and live performance Representing Sound thus complicates common conceptions of sound to include different ontological states This seemingly simple notion that the acoustic phenomena we encounter in concert are by nature different from those we encounter when we listen to records should have profound consequences for the way everyone from musicologists to rock stars considers recording practice In the tradition of books like Marshall McLuhan's and Quentin Fiore's The Medium Is The Massage 1968 Representing Sound sets its text within more than one hundred original visual artworks each designed to reinforce the essay's broader creative resonances This allows readers to approach the larger ontological argument either atomistically i e on a frame by frame basis or holistically depending on their creative or analytic needs In this way Representing Sound provides a possible model for creative scholarly work in the impending post book era
