Kleck, 2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Blank won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

Collecting Inspiration: Edward C. Moore at Tiffany & Co. Medill Higgins Harvey, Andrea Achi, Deniz Beyazit, Monika Bincsik, John Byck, Sheila R. Canby, Maryam Ekhtiar, Moira Gallagher, Kyriaki Karoglou, Christopher S. Lightfoot, Pengliang Lu, Amy McHugh, Iris Moon, Annamarie Sandeck, Karen Stamm, Catherine D. Stergar, 2021-07-06 Edward C Moore 1827 1891 was the creative leader who brought Tiffany Co to unparalleled originality and success during the late nineteenth century A silversmith designer and prodigious collector Moore sought out exceptional objects from around the world which he then used as inspiration for Tiffany's innovative silver designs This informative richly illustrated volume the first study of Moore's life collection and influence presents more than 170 examples from his vast collection ranging from Greek and Roman glass to Spanish vases Islamic metalwork and Japanese textiles These are juxtaposed with sixty magnificent silver objects created

by the designers and artisans at Tiffany who were inspired by Moore's acquisitions. Included among them are the world famous Bryant Vase drawing upon Greek examples, a love cup featuring ornate Saracenic decoration and a chocolate pot incorporating novel techniques influenced by Japanese ceramics and lacquerware. The illuminating texts have been enriched by groundbreaking research into contemporary sources such as newspapers and periodicals, the Tiffany Co Archives and a newly identified technical manual and supervisor's diaries, all of which provide an intimate look at the firm's design processes and Moore's role in shaping them. A valuable contribution to the history of American decorative arts. **Collecting Inspiration** illuminates both the legendary Tiffany aesthetic and the legacy of a significant collector, designer and entrepreneur of the Gilded Age. **Catalog of Copyright Entries** Library of Congress. Copyright Office, 1971 **The Outpost** Ben Date, 2024-04-26 In the wake of nuclear Armageddon, unimaginable horrors and evils continue to desecrate the remains of the modern world. **American Rifleman**, 1963 **Official Reports of the Supreme Court** United States. Supreme Court, 2010 **Cassino '44** James Holland, 2024-11-12 Acclaimed World War II historian James Holland vividly relates the dramatic last months of the Italian Campaign in a masterful volume that brings new awareness to this vital hinge point of the war. As the new year of 1944 began in Italy, the Allied army's momentum had ground to a halt just south of the vaunted German Gustav Line of defense, far short of their initial objective of liberating Rome by Christmas. The fighting up the Italian peninsula had been brutal, rugged terrain, fierce resistance, terrible weather. While Allied leaders in London prepared for the cross-Channel invasion of France, later that spring the war in the West hinged in Italy. As bestselling historian James Holland relates in his seminal concluding volume on the Italy Campaign, the next five months saw two of World War II's most famous battles: the four ferocious assaults on Monte Cassino and the fraught landing northwest in the marshes at Anzio, culminating at last in the liberation of Rome on June 4, merely two days before D-Day. Based on twenty years of research, **Cassino 44** offers perspectives and conclusions that differ from the standard narrative. Holland elevates the narrative of war, chronicling the dramatic events primarily through the moment letters and diaries of those who were there. Counterpointing the memories of German soldiers like battalion commander Jurg Kellner with those of British captain John Strick and American corporal Audie Murphy, whose exploits in the field would lead to Hollywood fame, and of Italian citizens and politicians caught up in the maelstrom, Holland vividly recreates their day-to-day encounter with destiny over each bloodily contested mile. General Mark Clark, overall Allied commander in Italy, has been criticized for being overly cautious and needlessly extending the campaign. Holland argues that given the conditions and constant shortage of materiel held back for the D-Day invasion, Clark and other commanders led a remarkably successful campaign. Well more than 100,000 Allied casualties occurred in the five months leading to Rome, more than in any other campaign of the war. **Cassino 44** is the definitive account of a key turning point of World War II and brings our appreciation of the experience of war to a new level. **United States Reports** United States. Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele *United States Reports* Supreme Court,Judiciary,2016-04-26 These reports contain the syllabi of cases which were argued before the court in a given term the opinions of the court as well as concurring and dissenting opinions **The Bias Against Guns** John R. Howell,1998 **Kangzhan** Leland Ness,Bin Shih,2016-09-16 *Kangzhan Guide to Chinese Ground Forces 1937 45* is the first ready reference to the organization and armament of Chinese ground forces during the Sino Japanese War of 1937 45 The work integrates Chinese Japanese and Western sources to examine the details of the structure and weapons of the period Recent scholarship has contributed greatly to our understanding of China s role in the war but this is the first book to deal with the bottom level underpinnings of this massive army crucial to an understanding of its tactical and operational utility An introductory chapter discusses the military operations in China often given short shrift in World War II histories The work then traces the evolution of the national army s organizational structure from the end of the Northern Expedition to the conclusion of World War II Included are tables of organization and strength reports for the wartime period The armament section illustrates and details not only the characteristics of the many and varied weapons used in China many seen nowhere else but also their acquisition and such local production as was undertaken This is complemented by a chapter on the arsenals and their evolution and production programs The Chinese army was one of the largest of the war and it and Japan s fought longer than any other It faced unique challenges including fragmented loyalties huge expanses of territory poor logistics networks inadequate arms supplies and often incompetence and corruption Nevertheless they fought bravely in major battles through 1941 and were

able to counterpunch effectively in important regions through the rest of the war Aimed at both military historians and wargamers this work fills an important gap in our understanding of this the most under appreciated army of the war
