50 Fantastic Ideas for Fearless Play Judit Horvath, 2017-03-09 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. Fearless play is a key element in developing a child's confidence, extending their limits and helping them learn to assess risks and manage situations. This book is full of fun and colourful ideas for facilitating fearless play in early years settings. The variety of activities means there's something for every child to enjoy, ranging from basket making to mud racing. Each idea is targeted to help children face new challenges and explore the world around them, as well as helping to establish motor skills, coordination and body awareness. A perfect resource for busy early years practitioners who want children in their care to play safely and fearlessly.

Concise Pond Wildlife Guide

Bloomsbury, 2015-05-21 This practical pocket guide published in association with the Wildlife Trusts includes more than 190 species of animal and plant that inhabit still water bodies such as ponds, pools and small lakes in northern Europe. Each species account includes accurate artworks and concise descriptions outlining essential details such as size, habitat, ecology and distribution in Britain and the near Continent. A vast number of species occurs in these habitats so the guide selectively pictures and describes a good range of fauna and flora that are most likely to be found and identified. Among the fascinating animals featured are freshwater sponges, hydras, water bears, worms, leeches, water snails, dragonflies and damselflies, frogs and toads, bats, fish, birds and iconic mammals such as the Water Vole and European Otter. The easy to follow layouts and illustrations aid quick and precise identification, making the book an indispensable reference in the field as well as in the home and garden.

99 Jumpstarts for Kids' Science Research Peggy Whitley, Susan Williams Goodwin, 2005-12-30 This third entry in the Jumpstarts series focuses on Science topics for upper elementary and middle school students. Maintaining the 99 Jumpstarts format of the two previous books, 99 Jumpstarts for Kids' Science Research is divided into ten broad topical sections. Each topic is arranged in alphabetical order under its section. Topics include Body Parts, Energy, Animals, Heavens, Weather, Matter, Medicine, Technology, Environment and Geology. This pathfinder approach aides students in the research process, helping them define important terms, offer beginning questions to help narrow their topic, furnish source ideas and some fun activities to explore each topic. Grades 4-8.

The Wildlife Pond Book Jules Howard, 2019-09-19 This friendly practical guide includes everything you need to know to pick up a spade, put in a pond and help wildlife flourish right outside your back door. Science Centres and Science Events Anne-Marie Bruyas, Michaela Riccio, 2012-10-30 The idea for this text stemmed from the fruitful experience gathered during the training course of 9 Nigerian university students organized in Naples from 3 to 18 September 2008 by the team of Fondazione IDIS Citt della Scienza under the project Science Centre Owerri The training course turned out to be not only an educational opportunity to acquire knowledge

and skills for these students but also a real and practical tool that later led to the realization of the first Science Festival of Owerri in Nigeria in May 2009 This in turn sparked the idea of creating a highly practical handbook for those who want to face the challenge of developing new projects for the dissemination and socialization of science in developing countries In these countries the role of scientific education and training in schools is not sufficient to arouse scientific curiosity among young people and make the population aware of the importance of scientific knowledge in everyday life Moreover science and technology are indispensable tools for people s empowerment and should be supported with actions that encourage curiosity about science and the intelligent use of technology to bridge the divide with developed countries It is therefore necessary to set up activities that are carefully targeted to promote and communicate science The text has been designed as a practical guide to be used in a variety of contexts scientific events or more structured science festivals training the creation of scientific cultural associations and the development of new science centres Besides being an excellent tool for training and supporting the design and planning phases the manual can also be used as a reference work for institutions and local cultural services which have to select projects of this type *Teaching Green -- The Elementary Years* Tim Grant,Gail
